The Journal of THORACIC AND CARDIOVASCULAR SURGERY

Official organ, The American Association for Thoracic Surgery and The Samson Thoracic Surgical Society

Editor DWIGHT C. McGOON, *Rochester, Minn.*

Associate editors
PHILIP E. BERNATZ, *Rochester, Minn.*
MICHAEL P. KAYE, *Rochester, Minn.*

Advisory editorial board
PAUL ADKINS, *Washington, D. C.*
RALPH D. ALLEY, *Albany*
RONALD J. BAIRD, *Toronto*
EDWARD J. BEATTIE, JR., *New York*
WILLARD M. DAGGETT, *Boston*
DONALD B. EFFLER, *Syracuse*
HERMES C. GRILLO, *Boston*
GERARD A. KAISER, *Miami*
JOHN W. KIRKLIN, *Birmingham*
HIRAM T. LANGSTON, *Chicago*
GEORGE G. LINDESMITH, *Los Angeles*
GEORGE J. MAGOVERN, *Pittsburgh*
JAMES R. MALM, *New York*
DONALD G. MULDER, *Los Angeles*
THOMAS F. NEALON, JR., *New York*
DONALD L. PAULSON, *Dallas*
FREDERICK G. PEARSON, *Toronto*
DAVID C. SABISTON, JR., *Durham, N. C.*
DAVID B. SKINNER, *Chicago*
NICHOLAS P. D. SMYTH, *Washington, D. C.*
FRANK C. SPENCER, *New York*
ALBERT STARR, *Portland*
V. L. WILLMAN, *St. Louis*

Former Editors
EVARTS A. GRAHAM, *Editor, 1931-1957*
EMILE HOLMAN, *Editor, 1957-1962*
BRIAN BLADES, *Editor, 1962-1977*

Volume 76, July-December, 1978

Subject index*

A

Adenoid cystic carcinoma (cylindroma) and mucoepidermoid carcinoma of bronchus: factors affecting survival (Conlan et al.), 369

α-Adrenergic drugs during cardiopulmonary resuscitation, optimizing myocardial supply/demand balance with (Livesay et al.), 244

American Association for Thoracic Surgery: Announcement of 1979 Annual Meeting, 140, 276, 419, 573, 729, 865
Annual meeting notes, 397
Graham Traveling Fellowship, 142, 278
Roster of members, 399
Board of Thoracic Surgery: Notice of examination, 144, 280, 422, 576, 732, 870

Amputation, forequarter, and chest wall resection, transmediastinal, radical, modified technique for (Mansour and Powell), 358

Anastomosis, ascending aorta–pulmonary artery, late hemodynamic and angiographic findings after (Norberg et al.), 345
–right pulmonary artery: long-oerm results in 137 patients with cyanotic congenital heart disease (Vetter et al.), 115
Waterston, cause of kinking of right pulmonary artery in: growth phenomenon (Rao and Ellison), 126

Anatomy, surgical, of Kent bundles based on electrophysiological mapping and surgical exploration (Sealy et al.), 804

Anemia, hemolytic, associated with heterograft replacement of mitral valve (Myers et al.), 214

Anesthesia, surgical, cardiac, useful adjunct in: transtracheal intubation (Raza et al.), 721

Aneurysm(s), dissecting, of thoracic aorta, use of ringed intraluminal graft in surgical treatment of: new technique (Ablaza et al.), 390
false, of left ventricle: surgical treatment (Yakierevitch et al.), 556

Aneurysmectomy, ventricular, with emphasis on anteroseptal repair, techniques and results of (Walker et al.), 824

Angiographic and hemodynamic findings, late, after ascending aorta–pulmonary artery anastomosis (Norberg et al.), 345

Angiography in cervicothoracic trauma, role of (Thomas et al.), 633

Anomalous left coronary artery from pulmonary trunk: long-term follow-up after ligation (Shrivastava et al.), 130
origin of circumflex coronary artery from right pulmonary artery: report of rare anomaly (Ott et al.), 190

Anoxic arrest, hypothermic, quantitative evaluation of myocardial ultrastructure following (Sunamori et al.), 518

Anteroseptal repair, techniques and results of ventricular aneurysmectomy with emphasis on (Walker et al.), 824

Aorta, ascending, and aortic valve, composite replacement of (Mayer et al.), 816
new surgical technique for operative management of acute dissections of: report of two cases (Dureau et al.), 385
–coronary artery bypass grafts, perioperative myocardial infarction in patients with coronary artery disease with and without (Mahar et al.), 533
revascularization with expanded polytetrafluoroethylene vascular graft: preliminary report (Yokoyama et al.), 552
bypass procedure, second, risk factors in patients undergoing (Barboriak et al.), 111
–pulmonary artery anastomosis, ascending, late hemodynamic and angiographic findings after (Norberg et al.), 345
shunts in infants with complex cyanotic heart disease, use of microporous expanded polytetrafluoroethylene grafts for: report of seven cases (Jennings et al.), 489
–right pulmonary artery anastomosis, ascending: long-term results in 137 patients with cyanotic congenital heart disease (Vetter et al.), 115
thoracic, use of ringed intraluminal graft in surgical treatment of dissecting aneurysms of: new technique (Ablaza et al.), 390

Aortic arch, type B interruption of, successful palliation using partial cardiopulmonary bypass in two-day-old infant with (Copeland et al.), 495
heterograft, porcine, mechanical failure (leaflet disruption) of: rare cause of acute aortic insufficiency (Housman et al.), 212
substitute, ball-valve, unusual, long-term follow-up of (Schmacker et al.), 216
valve. *See* Valve.
valvotomy, closed, in infants: late results (Trinkle et al.), 198

Apicoaortic conduit, technique for insertion of (Brown and Kirsh), 90

*July, pp. 1-144; August, pp. 145-280; September, pp. 281-422; October, pp. 423-576; November, pp. 577-732; December, pp. 733-890.

Volume 76
Number 6
December, 1978

Arch, aortic, type B interruption of, successful palliation using partial cardiopulmonary bypass in two-day-old infant with (Copeland et al.), 495
versus femoral artery perfusion during cardiopulmonary bypass (Salerno et al.), 681
Arrest, anoxic, hypothermic, quantitative evaluation of myocardial ultrastructure following (Sunamori et al.), 518
cardiac, ischemic, myocardial protection during: possible deleterious effects of glucose and mannitol in coronary infusates (Hearse et al.), 16
induced, effect of cross-clamp time, temperature, and cardioplegic agents on myocardial function after (Kay et al.), 590
Arrhythmias, cardiac, following open-heart surgery, use of temporarily placed epicardial atrial wire electrodes for diagnosis and treatment of (Waldo et al.), 500
Arteriovenous fistulas and dilated vessels in right lung after Glenn procedure, surgery for (Van Den Bogaert-Van Heesvelde et al.), 195
shunt flow, effect of pulmonary microembolism on (Cheney et al.), 473
Artery(ies) anastomosis, ascending aorta–pulmonary, late hemodynamic and angiographic findings after (Norberg et al.), 345
–right pulmonary: long-term results in 137 patients with cyanotic congenital heart disease (Vetter et al.), 115
approach, subclavian, for insertion of intra-aortic balloon (Mayer), 61
bypass, coronary, with internal mammary artery versus saphenous vein grafts, pulmonary effect of pleurotomy during and after (Burgess et al.), 230
graft surgery, coronary, relation of preoperative use of aspirin to increased mediastinal blood loss after (Michelson et al.), 694
surgery, coronary, delirium after (Kornfeld et al.), 93
coronary, circumflex, from right pulmonary artery, anomalous origin of: report of rare anomaly (Ott et al.), 190
left, anomalous, from pulmonary trunk: long-term follow-up after ligation (Shrivastava et al.), 130
in surgery for transposition of great arteries, vulnerability of (Anderson et al.), 135
disease, coronary, with and without aorta–coronary artery bypass grafts, perioperative myocardial infarction in patients with (Mahar et al.), 533
femoral, versus arch perfusion during cardiopulmonary bypass (Salerno et al.), 681
great, transposition of, Senning operation for (Parenzan et al.), 305
total correction of: conduction disturbances in infants younger than three months of age (Turley and Ebert), 312
pulmonary, right, in Waterston anastomosis, cause of kinking of: growth phenomenon (Rao and Ellison), 126
surgical correction of chronic postembolic obstructions of (Cabrol et al.), 620
surgery, coronary, history of (Connolly), 733 (Presidential Address)
Ascending aorta and aortic valve, composite replacement of (Mayer et al.), 816
new surgical technique for operative management of acute dissections of: report of two cases (Dureau et al.), 385
–pulmonary artery anastomosis, late hemodynamic and angiographic findings after (Norberg et al.), 345
Aspiration, needle, and bronchoscopy in diagnosis of peripheral lung masses, role of (Mark et al.), 266
Aspirin to increased mediastinal blood loss after coronary artery bypass graft surgery, relation of preoperative use of (Michelson et al.), 694
Assistants, physicians', on university cardiothoracic surgical service: five-year update (Miller and Hatcher), 639
Atresia, pulmonary, surgical treatment of tetralogy of Fallot with (Alfieri et al.), 321
Atrial septal defect associated with drainage of left superior vena cava to left atrium and absence of coronary sinus (Foster et al.), 718
wire electrodes, epicardial, temporarily placed, for diagnosis and treatment of cardiac arrhythmias following open-heart surgery, use of (Waldo et al.), 500
Atrioventricular canal, complete, double-outlet right ventricle, and atrioventricular discordance associated with dextrocardia and pulmonary stenosis, successful repair of (Danielson et al.), 710
discordance, surgical management of double-outlet right ventricle with (Tabry et al.), 336
Atrium, left, and absence of coronary sinus, atrial septal defect associated with drainage of left superior vena cava to (Foster et al.), 718
right, isolated, as pump, assessment of (Murphy et al.), 483
necessitating extensive resection and reconstruction, benign tumors of (Culliford et al.), 178

B

Ball-valve aortic substitute, unusual, long-term follow-up of (Shumaker et al.), 216
Balloon, intra-aortic, subclavian artery approach for insertion of (Mayer), 61
pumping, intra-aortic, on nutrient coronary flow in normal and ischemic myocardium, effect of (Swank et al.), 538
Benign tumors of right atrium necessitating extensive resection and reconstruction (Culliford et al.), 178
Björk-Shiley and Braunwald-Cutter prostheses and Ionescu-Shiley pericardial xenograft in mitral position, long-term clinical and hemodynamic evaluation of (Tandon et al.), 763
Blood cardioplegia over continuous coronary perfusion or intermittent ischemia, advantages of: experimental and clinical study (Follette et al.), 604
cold, myocardial protection by intermittent perfusion with cardioplegic solution versus intermittent coronary perfusion with (Laks et al.), 158
conservation, maximum, role in: immediate centrifugation of oxygenator contents after cardiopulmonary bypass (Moran et al.), 510
loss, mediastinal, increased, after coronary artery bypass graft surgery, relation of preoperative use of aspirin to (Michelson et al.), 694
Braunwald-Cutter and Björk-Shiley prostheses and Ionescu-Shiley pericardial xenograft in mitral position, long-term clinical and hemodynamic evaluation of (Tandon et al.), 763
Bronchogenic carcinoma and active pulmonary tuberculosis, coexistent (Mok et al.), 469
changes in T cell population in patients with (Shirakusa et al.), 262
of left upper lobe, value of anterior mediastinotomy in (Bowen et al.), 269

Bronchogenic carcinoma—Cont'd
at Massachusetts General Hospital, four decades of experience with resections for (Wilkins et al.), 364
primary, twenty-year analysis of results of sleeve resection for (Bennett and Abbey Smith), 840
Bronchoplastic procedures in treatment of carcinoid tumors of tracheobronchial tree (Okike et al.), 281
Bronchopleural fistula: thirteen-year experience with 77 cases (Hankins et al.), 755
Bronchoscopy, fiberoptic: comparison of procedures used in diagnosis of lung cancer (Chaudhary et al.), 33
and needle aspiration in diagnosis of peripheral lung masses, role of (Mark et al.), 266
Bronchus, adenoid cystic carcinoma (cylindroma) and mucoepidermoid carcinoma of: factors affecting survival (Conlan et al.), 369
granular cell myoblastoma of: case report and literature review (Valenstein and Thurer), 465
Bubble and membrane oxygenators, Travenol, comparison of: postperfusion lung syndrome (Byrick and Noble), 685
Bundles, Kent, based on electrophysiological mapping and surgical exploration, surgical anatomy of (Sealy et al.), 804
Bypass, artery, coronary, with internal mammary artery versus saphenous vein grafts, pulmonary effect of pleurotomy during and after (Burgess et al.), 230
cardiopulmonary, arch versus femoral artery perfusion during (Salerno et al.), 681
immediate centrifugation of oxygenator contents after: role in maximum blood conservation (Moran et al.), 510
with intraoperative ischemia, alterations in regional contractility following (Gaudiani et al.), 70
partial, in two-day-old infant with type B interruption of aortic arch, successful palliation using (Copeland et al.), 495
graft(s), aorta–coronary artery, perioperative myocardial infarction in patients with coronary artery disease with and without (Mahar et al.), 533
surgery, artery, coronary, relation of preoperative use of aspirin to increased mediastinal blood loss after (Michelson et al.), 694
procedure, aorta-coronary, second, risk factors in patients undergoing (Barboriak et al.), 111
surgery, artery, coronary, delirium after (Kornfeld et al.), 93

C

Caged-ball prostheses, non–cloth-covered: second decade (Macmanus et al.), 788
Canal, atrioventricular, complete, double-outlet right ventricle, and atrioventricular discordance associated with dextrocardia and pulmonary stenosis, successful repair of (Danielson et al.), 710
Cancer, lung, comparison of procedures used in diagnosis of: fiberoptic bronchoscopy (Chaudhary et al.), 33
primary, sequential evaluation of DNCB reactivity in patients with: correlation with prognosis (Inoue et al.), 479
resected, lymph node mapping and curability at various levels of metastasis in (Naruke et al.), 832
Carcinoid tumors of tracheobronchial tree, bronchoplastic procedures in treatment of (Okike et al.), 281
Carcinoma, bronchogenic, and active pulmonary tuberculosis, coexistent (Mok et al.), 469
changes in T cell population in patients with (Shirakusa et al.), 262
Carcinoma—Cont'd
of left upper lobe, value of anterior mediastinotomy in (Bowen et al.), 269
at Massachusetts General Hospital, four decades of experience with resections for (Wilkins et al.), 364
primary, twenty-year analysis of results of sleeve resection for (Bennett and Abbey Smith), 840
cystic, adenoid (cylindroma) and mucoepidermoid carcinoma of bronchus: factors affecting survival (Conlan et al.), 369
esophageal, factors influencing morbidity and mortality in (Ong et al.), 745 (Honored Speaker's Address)
lung, long-term survivors of resection of (Shields et al.), 439
undifferentiated, small cell, combined therapy for (Mandelbaum et al.), 292
mucoepidermoid, tracheobronchial: clinicopathological features and results of treatment (Leonardi et al.), 431
Cardiac arrhythmias following open-heart surgery, use of temporarily placed epicardial atrial wire electrodes for diagnosis and treatment of (Waldo et al.), 500
chambers, two or more, wounds traversing: case presentation of two survivors and review of literature (Enders et al.), 83
intra-, operation, open, repeat: analysis of fifty operations (English and Milstein), 56
pacemakers, permanent, implanted in pleural space (Lynch et al.), 101
paraganglioma (chemodectoma): case report and review of literature (Gopalakrishnan et al.), 183
rupture, acute, anatomic, clinical, and therapeutic features of: successful surgical management fourteen hours after myocardial infarction (Eisenmann et al.), 78
surgery, evaluation of lactate dehydrogenase isoenzyme patterns in serum of patients undergoing (Papadopoulos and Hufnagel), 173
surgical anesthesia, useful adjunct in: transtracheal intubation (Raza et al.), 721
Cardioplegia, blood, over continuous coronary perfusion or intermittent ischemia, advantages of: experimental and clinical study (Follette et al.), 604
cold, versus hypothermia for myocardial protection: randomized clinical study (Conti et al.), 577
potassium-induced: additive protection against ischemic myocardial injury during coronary revascularization (Craver et al.), 24
Cardioplegic agents, cross-clamp time, and temperature on myocardial function after induced arrest, effect of (Kay et al.), 590
infusates, various, ultrastructural, enzymatic, and functional assessment of efficacy of: protection of ischemic myocardium (Jynge et al.), 2
solution, effect of temperature of (Behrendt and Jochim), 353
versus intermittent coronary perfusion with cold blood, myocardial protection by intermittent perfusion with (Laks et al.), 158
Cardiopulmonary bypass. *See* Bypass.
resuscitation, optimizing myocardial supply/demand balance with α-adrenergic drugs during (Livesay et al.), 244
Cardiothoracic surgical service, university, physicians' assistants on: five-year update (Miller and Hatcher), 639
Cartilages, costal, and sternum, Pseudomonas infection of: report of three cases (Miller et al.), 723
Cefazolin and cephalothin in open-heart surgery, double-blind comparison of (Kini et al.), 506

Centrifugation, immediate, of oxygenator contents after cardiopulmonary bypass: role in maximum blood conservation (Moran et al.), 510
Cephalothin and cefazolin in open-heart surgery, double-blind comparison of (Kini et al.), 506
Cervicothoracic trauma, role of angiography in (Thomas et al.), 633
Chambers, cardiac, two or more, wounds traversing: case presentation of two survivors and review of literature (Enders et al.), 83
Chemodectoma (cardiac paraganglioma): case report and review of literature (Gopalakrishnan et al.), 183
Chest wall resection and forequarter amputation, transmediastinal, radical, modified technique for (Mansour and Powell), 358
Children and infants, gastroesophageal fundoplication for management of reflux in (Fonkalsrud et al.), 655
reasonable surgery for thoracic neuroblastoma in (Catalano et al.), 459
with rheumatic mitral stenosis, closed versus open mitral commissurotomy in (Aryanpur et al.), 223
Chylothorax, persistent: treatment by talc pleurodesis (Adler and Levinsky), 859
Circulatory failure, massive pulmonary embolism with: survival following sixty hours' support with membrane lung (Jardin et al.), 252
Closed aortic valvotomy in infants: late results (Trinkle et al.), 198
Colloid hyperosmolar solution, hypothermic storage for 24 hours in: lung transplantation (Toledo-Pereyra and Condie), 846
Commissurotomy, mitral, closed versus open, in children with rheumatic mitral stenosis (Aryanpur et al.), 223
Conduction disturbances in infants younger than three months of age: total correction of transposition of great arteries (Turley and Ebert), 312
Conduit, apicoaortic, technique for insertion of (Brown and Kirsh), 90
Congenital heart disease, cyanotic, long-term results in 137 patients with: ascending aorta–right pulmonary artery anastomosis (Vetter et al.), 115
Congestive heart failure, pulmonary sequestration presenting as (Ransom et al.), 378
Contractility, regional, following cardiopulmonary bypass with intraoperative ischemia, alterations in (Gaudiani et al.), 70
Coronary artery. *See* Artery.
bypass. *See* Bypass.
flow, nutrient, in normal and ischemic myocardium, effect of intra-aortic balloon pumping on (Swank et al.), 538
perfusion, continuous, or intermittent ischemia, advantages of blood cardioplegia over: experimental and clinical study (Follette et al.), 604
intermittent, with cold blood, myocardial protection by intermittent perfusion with cardioplegic solution versus (Laks et al.), 158
revascularization, additive protection against ischemic myocardial injury during: potassium-induced cardioplegia (Craver et al.), 24
in patients with recent myocardial infarction, results of (Jones et al.), 545
sinus, atrial septal defect associated with drainage of left superior vena cava to left atrium and absence of (Foster et al.), 718
fistula, left ventricular–, following repeated mitral valve replacements (Miller et al.), 43
Coronary sinus fistula—Cont'd
following replacement of mitral valve prosthesis, development of (Morritt et al.), 381
surgery, survival after (Wisoff et al.), 108
Costal cartilages and sternum, Pseudomonas infection of: report of three cases (Miller et al.), 723
Cross-clamp time, temperature, and cardioplegic agents on myocardial function after induced arrest, effect of (Kay et al.), 590
Cyanotic congenital heart disease, long-term results in 137 patients with: ascending aorta–right pulmonary artery anastomosis (Vetter et al.), 115
heart disease, complex, use of microporous expanded polytetrafluoroethylene grafts for aorta-pulmonary shunts in infants with: report of seven cases (Jennings et al.), 489
Cylindroma (adenoid cystic carcinoma) and mucoepidermoid carcinoma of bronchus: factors affecting survival (Conlan et al.), 369

D

Damage, fatigue-induced, in glutaraldehyde-preserved heart valve tissue (Broom), 202
Defect, septal, atrial, associated with drainage of left superior vena cava to left atrium and absence of coronary sinus (Foster et al.), 718
ventricular, pulmonary hyperinflation in (Oh et al.), 706
restrictive, double-outlet right ventricle with (Marin-Garcia et al.), 853
Delirium after coronary artery bypass surgery (Kornfeld et al.), 93
Dextrocardia and pulmonary stenosis, successful repair of double-outlet right ventricle, complete atrioventricular canal, and atrioventricular discordance associated with (Danielson et al.), 710
Diaphragmatic, sub-, inferior vena cava, surgery of tumors of: report of two cases and review of literature (Hill and Hetzer), 38
Dimensions, myocardial, mid-wall, segmental, in man recorded by sonomicrometry (Hill et al.), 235
Discordance, atrioventricular, double-outlet right ventricle, and complete atrioventricular canal associated with dextrocardia and pulmonary stenosis, successful repair of (Danielson et al.), 170
surgical management of double-outlet right ventricle with (Tabry et al.), 336
Disease, artery, coronary, with and without aorta–coronary artery bypass grafts, perioperative myocardial infarction in patients with (Mahar et al.), 533
heart, congenital, cyanotic, long-term results in 137 patients with: ascending aorta–right pulmonary artery anastomosis (Vetter et al.), 115
cyanotic, complex, use of microporous expanded polytetrafluoroethylene grafts for aorta-pulmonary shunts in infants with: report of seven cases (Jennings et al.), 489
von Willebrand's, aortic valve replacement in (Young et al.), 218
Disorder, motor, in pharyngoesophageal pouch (Lichter), 272
Dissecting aneurysms of thoracic aorta, use of ringed intraluminal graft in surgical treatment of: new technique (Ablaza et al.), 390
Dissections, acute, of ascending aorta, new surgical technique for operative management of: report of two cases (Dureau et al.), 385

DNCB reactivity in patients with primary lung cancer, sequential evaluation of: correlation with prognosis (Inoue et al.), 479
Double-blind comparison of cefazolin and cephalothin in open-heart surgery (Kini et al.), 506
Double-outlet right ventricle associated with atrioventricular discordance, surgical management of (Tabry et al.), 336
complete atrioventricular canal, and atrioventricular discordance associated with dextrocardia and pulmonary stenosis, successful repair of (Danielson et al.), 710
with restrictive ventricular septal defect (Marin-Garcia et al.), 853
Drainage of left superior vena cava to left atrium and absence of coronary sinus, atrial septal defect associated with (Foster et al.), 718
Drugs, α-adrenergic, during cardiopulmonary resuscitation, optimizing myocardial supply/demand balance with (Livesay et al.), 244

E

Echocardiographic assessment, epicardial, continuous, of postoperative left ventricular function (Gaudiani et al.), 64
Editorial (Teasdale), 678
Effusions, pericardial, uremic, conservative management of (Kwasnik et al.), 629
Electrodes, wire, atrial, epicardial, temporarily placed, for diagnosis and treatment of cardiac arrhythmias following open-heart surgery, use of (Waldo et al.), 500
Electroencephalogram during open-heart surgery, monitoring of: prospective analysis of 118 cases (Salerno et al.), 97
Electrophysiological mapping and surgical exploration, surgical anatomy of Kent bundles based on (Sealy et al.), 804
Embolic, post-, obstructions, chronic, of pulmonary arteries, surgical correction of (Cabrol et al.), 620
Embolism, pulmonary, massive, with circulatory failure: survival following sixty hours' support with membrane lung (Jardin et al.), 252
Endobronchial lymphoscintigraphy (EBLS): new diagnostic modality (Bethune et al.), 446
Endocarditis, valve, prosthetic: comparison of heterograft tissue valves and mechanical valves (Rossiter et al.), 795
Epicardial atrial wire electrodes, temporarily placed, for diagnosis and treatment of cardiac arrhythmias following open-heart surgery, use of (Waldo et al.), 500
echocardiographic assessment, continuous, of postoperative left ventricular function (Gaudiani et al.), 64
Errata, 189, 352, 603
Esophageal carcinoma, factors influencing morbidity and mortality in (Ong et al.), 745 (Honored Speaker's Address)
Esophagectomy without thoracotomy (Orringer and Sloan), 643
Exploration, surgical, and electrophysiological mapping, surgical anatomy of Kent bundles based on (Sealy et al.), 804
Extracorporeal membrane oxygenator support for human lung transplantation (Nelems et al.), 28

F

Failure, circulatory, massive pulmonary embolism with: survival following sixty hours' support with membrane lung (Jardin et al.), 252
heart, congestive, pulmonary sequestration presenting as (Ransom et al.), 378
mechanical (leaflet disruption), of porcine aortic heterograft: rare cause of acute aortic insufficiency (Housman et al.), 212
Fallot, tetralogy of, with pulmonary atresia, surgical treatment of (Alfieri et al.), 321
False aneurysm of left ventricle: surgical treatment (Yakierevitch et al.), 556
Fascia lata and homograft valves, comparative analysis of isolated aortic valve replacement with (Soorae et al.), 46
Fatigue-induced damage in glutaraldehyde-preserved heart valve tissue (Broom), 202
Femoral artery versus arch perfusion during cardiopulmonary bypass (Salerno et al.), 681
Fiberoptic bronchoscopy: comparison of procedures used in diagnosis of lung cancer (Chaudhary et al.), 33
Fistula(s), arteriovenous, and dilated vessels in right lung after Glenn procedure, surgery for (Van Den Bogaert-Van Heesvelde et al.), 195
bronchopleural: thirteen-year experience with 77 cases (Hankins et al.), 755
left ventricular–coronary sinus, following repeated mitral valve replacements (Miller et al.), 43
following replacement of mitral valve prosthesis, development of (Morritt et al.), 381
Flow, coronary, nutrient, in normal and ischemic myocardium, effect of intra-aortic balloon pumping on (Swank et al.), 538
rates, high, in vitro hydrodynamic comparison of mitral valve prostheses at (Gabbay et al.), 771
shunt, arteriovenous, effect of pulmonary microembolism on (Cheney et al.), 473
Forequarter amputation and chest wall resection, transmediastinal, radical, modified technique for (Mansour and Powell), 358
Function, myocardial, after induced arrest, effect of cross-clamp time, temperature, and cardioplegic agents on (Kay et al.), 590
ventricular, left, postoperative, continuous epicardial echocardiographic assessment of (Gaudiani et al.), 64
Fundoplication, gastroesophageal, for management of reflux in infants and children (Fonkalsrud et al.), 655
and gastroplasty in management of complex reflux problems (Pearson et al.), 665

G

Gastroesophageal fundoplication for management of reflux in infants and children (Fonkalsrud et al.), 655
Gastroplasty and fundoplication in management of complex reflux problems (Pearson et al.), 665
Glenn procedure, surgery for arteriovenous fistulas and dilated vessels in right lung after (Van Den Bogaert-Van Heesvelde et al.), 195
Glucose and mannitol in coronary infusates, possible deleterious effects of: myocardial protection during ischemic cardiac arrest (Hearse et al.), 16
Glutaraldehyde-preserved heart valve tissue, fatigue-induced damage in (Broom), 202
Graft(s), bypass, aorta–coronary artery, perioperative myocardial infarction in patients with coronary artery disease with and without (Mahar et al.), 533
intraluminal, ringed, in surgical treatment of dissecting aneurysms of thoracic aorta, use of: new technique (Ablaza et al.), 390
polytetrafluoroethylene, expanded, microporous, for aorta-pulmonary shunts in infants with complex cyanotic heart disease, use of: report of seven cases (Jennings et al.), 489

Graft(s)—Cont'd
surgery, bypass, artery, coronary, relation of preoperative use of aspirin to increased mediastinal blood loss after (Michelson et al.), 694
vascular, polytetrafluoroethylene, expanded, aorta–coronary artery revascularization with: preliminary report (Yokoyama et al.), 552
Granular cell myoblastoma of bronchus: case report and literature review (Valenstein and Thurer), 465
Growth and healing, tracheal (Burrington), 453
Great arteries, transposition of, Senning operation for (Parenzan et al.), 305
total correction of: conduction disturbances in infants younger than three months of age (Turley and Ebert), 312
Guest Reviewers for The Journal of Thoracic and Cardiovascular Surgery, 1

H

Healing and growth, tracheal (Burrington), 453
Heart disease, congenital, cyanotic, long-term results in 137 patients with: ascending aorta–right pulmonary artery anastomosis (Vetter et al.), 115
cyanotic, complex, use of microporous expanded polytetrafluoroethylene grafts for aorta-pulmonary shunts in infants with: report of seven cases (Jennings et al.), 489
failure, congestive, pulmonary sequestration presenting as (Ransom et al.), 378
valve tissue, glutaraldehyde-preserved, fatigue-induced damage in (Broom), 202
Hemodynamic and angiographic findings, late, after ascending aorta–pulmonary artery anastomosis (Norberg et al.), 345
and clinical evaluation, long-term, of Ionescu-Shiley pericardial xenograft and Braunwald-Cutter and Björk-Shiley prostheses in mitral position (Tandon et al.), 763
Hemolytic anemia associated with heterograft replacement of mitral valve (Myers et al.), 214
Heterograft, aortic, porcine, mechanical failure (leaflet disruption) of: rare cause of acute aortic insufficiency (Housman et al.), 212
replacement of mitral valve, hemolytic anemia associated with (Myers et al.), 214
tissue valves and mechanical valves, comparison of: prosthetic valve endocarditis (Rossiter et al.), 795
History of coronary artery surgery (Connolly), 733 (Presidential Address)
Homograft and fascia lata valves, comparative analysis of isolated aortic valve replacement with (Soorae et al.), 46
Honored Speaker's Address: Factors influencing morbidity and mortality in esophageal carcinoma (Ong et al.), 745
Hydrodynamic comparison, in vitro, of mitral valve prostheses at high flow rates (Gabbay et al.), 771
Hyperinflation, pulmonary, in ventricular septal defect (Oh et al.), 706
Hypertrophic subaortic stenosis: operative methods utilized to relieve left ventricular outflow obstruction (Morrow), 423 (curr. tech.)
Hypothermia versus cold cardioplegia for myocardial protection: randomized clinical study (Conti et al.), 577
Hypothermic anoxic arrest, quantitative evaluation of myocardial ultrastructure following (Sunamori et al.), 518
storage for 24 hours in colloid hyperosmolar solution: lung transplantation (Toledo-Pereyra and Condie), 846

I

Infant(s) and children, gastroesophageal fundoplication for management of reflux in (Fonkalsrud et al.), 655
reasonable surgery for thoracic neuroblastoma in (Catalano et al.), 459
closed aortic valvotomy in: late results (Trinkle et al.), 198
with complex cyanotic heart disease, use of microporous expanded polytetrafluoroethylene grafts for aorta-pulmonary shunts in: report of seven cases (Jennings et al.), 489
two-day-old, with type B interruption of aortic arch, successful palliation using partial cardiopulmonary bypass in (Copeland et al.), 495
younger than three months of age, conduction disturbances in: total correction of transposition of great arteries (Turley and Ebert), 312
Infarction, myocardial, successful surgical management fourteen hours after: anatomic, clinical, and therapeutic features of acute cardiac rupture (Eisenmann et al.), 78
perioperative, in patients with coronary artery disease with and without aorta–coronary artery bypass grafts (Mahar et al.), 533
results and patterns of (Young et al.), 528
recent, results of coronary revascularization in patients with (Jones et al.), 545
Infection, Pseudomonas, of sternum and costal cartilages: report of three cases (Miller et al.), 723
Inferior vena cava, subdiaphragmatic, surgery of tumors of: report of two cases and review of literature (Hill and Hetzer), 38
Infusates, cardioplegic, various, ultrastructural, enzymatic, and functional assessment of efficacy of: protection of ischemic myocardium (Jynge et al.), 2
coronary, possible deleterious effects of glucose and mannitol in: myocardial protection during ischemic cardiac arrest (Hearse et al.), 16
myocardial, volume-duration relationships and efficacy of: protection of ischemic myocardium (Jynge et al.), 698
Injury, myocardial, ischemic, during coronary revascularization, additive protection against: potassium-induced cardioplegia (Craver et al.), 24
Insertion of apicoaortic conduit, technique for (Brown and Kirsh), 90
Insufficiency, aortic, acute, rare cause of: mechanical failure (leaflet disruption) of porcine aortic heterograft (Housman et al.), 212
Interruption of aortic arch, type B, successful palliation using partial cardiopulmonary bypass in two-day-old infant with (Copeland et al.), 495
Intra-aortic balloon, subclavian artery approach for insertion of (Mayer), 61
Intracardiac operation, open, repeat: analysis of fifty operations (English and Milstein), 56
Intraluminal graft, ringed, in surgical treatment of dissecting aneurysms of thoracic aorta, use of: new technique (Ablaza et al.), 390
Intubation, transtracheal: useful adjunct in cardiac surgical anesthesia (Raza et al.), 721
Ionescu-Shiley pericardial xenograft and Braunwald-Cutter and Björk-Shiley prostheses in mitral position, long-term clinical and hemodynamic evaluation of (Tandon et al.), 763
Ischemia, intermittent, or continuous coronary perfusion, advantages of blood cardioplegia over: experimental and clinical study (Follette et al.), 604

Ischemia—Cont'd
intraoperative, alterations in regional contractility following cardiopulmonary bypass (Gaudiani et al.), 70
Ischemic cardiac arrest, myocardial protection during: possible deleterious effects of glucose and mannitol in coronary infusates (Hearse et al.), 16
myocardial injury during coronary revascularization, additive protection against: potassium-induced cardioplegia (Craver et al.), 24
myocardium, protection of: ultrastructural, enzymatic, and functional assessment of efficacy of various cardioplegic infusates (Jynge et al.), 2
volume-duration relationships and efficacy of myocardial infusates (Jynge et al.), 698
Isoenzyme patterns, lactate dehydrogenase, in serum of patients undergoing cardiac surgery, evaluation of (Papadopoulos and Hufnagel), 173

K

Kent bundles based on electrophysiological mapping and surgical exploration, surgical anatomy of (Sealy et al.), 804
Kinking of right pulmonary artery in Waterston anastomosis, cause of: growth phenomenon (Rao and Ellison), 126

L

Lactate dehydrogenase isoenzyme patterns in serum of patients undergoing cardiac surgery, evaluation of (Papadopoulos and Hufnagel), 173
Leaflet disruption (mechanical failure) of porcine aortic heterograft: rare cause of acute aortic insufficiency (Housman et al.), 212
Leiomyoma of lung (Orlowski et al.), 257
Lung cancer, comparison of procedures used in diagnosis of: fiberoptic bronchoscopy (Chaudhary et al.), 33
primary, sequential evaluation of DNCB reactivity in patients with: correlation with prognosis (Inoue et al.), 479
resected, lymph node mapping and curability at various levels of metastasis in (Naruke et al.), 832
carcinoma, long-term survivors of resection of (Shields et al.), 439
combined therapy for small cell undifferentiated carcinoma of (Mandelbaum et al.), 292
leiomyoma of (Orlowski et al.), 257
masses, peripheral, role of bronchoscopy and needle aspiration in diagnosis of (Shirakusa et al.), 266
membrane, survival following sixty hours' support with: massive pulmonary embolism with circulatory failure (Jardin et al.), 252
right, after Glenn procedure, surgery for arteriovenous fistulas and dilated vessels in (Van Den Bogaert-Van Heesvelde et al.), 195
syndrome, postperfusion: comparison of Travenol bubble and membrane oxygenators (Byrick and Noble), 685
transplantation, human, extracorporeal membrane oxygenator support for (Nelems et al.), 28
hypothermic storage for 24 hours in colloid hyperosmolar solution (Toledo-Pereyra and Condie), 846
Lymph node mapping and curability at various levels of metastasis in resected lung cancer (Naruke et al.), 832
Lymphoscintigraphy, endobronchial (EBLS): new diagnostic modality (Bethune et al.), 446

M

Mannitol and glucose in coronary infusates, possible deleterious effects of: myocardial protection during ischemic cardiac arrest (Hearse et al.), 16
Mapping, electrophysiological, and surgical exploration, surgical anatomy of Kent bundles based on (Sealy et al.), 804
node, lymph, and curability at various levels of metastasis in resected lung cancer (Naruke et al.), 832
Masses, lung, peripheral, role of bronchoscopy and needle aspiration in diagnosis of (Shirakusa et al.), 266
mediastinal, of vascular origin: review (Kelley et al.), 559
Mechanical failure (leaflet disruption) of porcine aortic heterograft: rare cause of acute aortic insufficiency (Housman et al.), 212
valves and heterograft tissue valves, comparison of: prosthetic valve endocarditis (Rossiter et al.), 795
Mediastinal blood loss, increased, after coronary artery bypass graft surgery, relation of preoperative use of aspirin to (Michelson et al.), 694
masses of vascular origin: review (Kelley et al.), 559
Mediastinotomy, anterior, in bronchogenic carcinoma of left upper lobe, value of (Bowen et al.), 269
Membrane and bubble oxygenators, Travenol, comparison of: postperfusion lung syndrome (Byrick and Noble), 685
lung, survival following sixty hours' support with: massive pulmonary embolism with circulatory failure (Jardin et al.), 252
oxygenator support, extracorporeal, for human lung transplantation (Nelems et al.), 28
Metastasis in resected lung cancer, lymph node mapping and curability at various levels of (Naruke et al.), 832
Microembolism, pulmonary, on arteriovenous shunt flow, effect of (Cheney et al.), 473
Mitral commissurotomy, closed versus open, in children with rheumatic mitral stenosis (Aryanpur et al.), 223
position, long-term clinical and hemodynamic evaluation of Ionescu-Shiley pericardial xenograft and Braunwald-Cutter and Björk-Shiley prostheses in (Tandon et al.), 763
valve. *See* Valve.
Monitoring of electroencephalogram during open-heart surgery: prospective analysis of 118 cases (Salerno et al.), 97
Motor disorder in pharyngoesophageal pouch (Lichter), 272
Mucoepidermoid carcinoma and adenoid cystic carcinoma (cylindroma) of bronchus: factors affecting survival (Conlan et al.), 369
tracheobronchial: clinicopathological features and results of treatment (Leonardi et al.), 431
Myoblastoma, granular cell, of bronchus: case report and literature review (Valenstein and Thurer), 465
Myocardial dimensions, mid-wall, segmental, in man recorded by sonomicrometry (Hill et al.), 235
function after induced arrest, effect of cross-clamp time, temperature, and cardioplegic agents on (Kay et al.), 590
infarction, perioperative, in patients with coronary artery disease with and without aorta–coronary artery bypass grafts (Mahar et al.), 533
results and patterns of (Young et al.), 528
recent, results of coronary revascularization in patients with (Jones et al.), 545
successful surgical management fourteen hours after: anatomic, clinical, and therapeutic features of acute cardiac rupture (Eisenmann et al.), 78
injury, ischemic, during coronary revascularization, additive protection against: potassium-induced cardioplegia (Craver et al.), 24
protection, cold cardioplegia versus hypothermia for: randomized clinical study (Conti et al.), 577

Myocardial protection—Cont'd
by intermittent perfusion with cardioplegic solution versus intermittent coronary perfusion with cold blood (Laks et al.), 158
during ischemic cardiac arrest: possible deleterious effects of glucose and mannitol in coronary infusates (Hearse et al.), 16
supply/demand balance, optimizing, with α-adrenergic drugs during cardiopulmonary resuscitation (Livesay et al.), 244
ultrastructure following hypothermic anoxic arrest, quantitative evaluation of (Sunamori et al.), 518
Myocardium, ischemic, protection of: ultrastructural, enzymatic, and functional assessment of efficacy of various cardioplegic infusates (Jynge et al.), 2
volume-duration relationships and efficacy of myocardial infusates (Jynge et al.), 698
normal and ischemic, effect of intra-aortic balloon pumping on nutrient coronary flow in (Swank et al.), 538

N

Needle aspiration and bronchoscopy in diagnosis of peripheral lung masses, role of (Mark et al.), 266
Nerve paralysis, phrenic, unilateral, postoperative, clinical implications (Mickell et al.), 297
Neuroblastoma, thoracic, in infants and children, reasonable surgery for (Catalano et al.), 459
Non-cloth-covered caged-ball prostheses: second decade (Macmanus et al.), 788

O

Obstruction(s), postembolic, chronic, of pulmonary arteries, surgical correction of (Cabrol et al.), 620
outflow, left ventricular, operative methods utilized to relieve: hypertrophic subaortic stenosis (Morrow), 423 (curr. tech.)
Open-heart surgery, double-blind comparison of cefazolin and cephalothin in (Kini et al.), 506
potassium status of patients after (Morgan et al.), 673
Operation, intracardiac, open, repeat: analysis of fifty operations (English and Milstein), 56
Senning, for transposition of great arteries (Parenzan et al.), 305
Origin, anomalous, of circumflex coronary aftery from right pulmonary artery: report of rare anomaly (Ott et al.), 190
vascular, mediastinal masses of: review (Kelley et al.), 559
Outflow obstruction, left ventricular, operative methods utilized to relieve: hypertrophic subaortic stenosis (Morrow), 423 (curr. tech.)
Oxygenator(s), bubble and membrane, Travenol, comparison of: postperfusion lung syndrome (Byrick and Noble), 685
contents after cardiopulmonary bypass, immediate centrifugation of: role in maximum blood conservation (Moran et al.), 510
support, membrane, extracorporeal, for human lung transplantation (Nelems et al.), 28

P

Pacemakers, cardiac, permanent, implanted in pleural space (Lynch et al.), 101
Palliation, successful, using partial cardiopulmonary bypass in two-day-old infant with type B interruption of aortic arch (Copeland et al.), 495
Paraganglioma, cardiac (chemodectoma): case report and review of literature (Gopalakrishnan et al.), 183
Paralysis, nerve, phrenic, unilateral, postoperative, clinical implications of (Mickell et al.), 297
Perfusion, arch versus femoral artery, during cardiopulmonary bypass (Salerno et al.), 681
coronary, continuous, or intermittent ischemia, advantages of blood cardioplegia over: experimental and clinical study (Follette et al.), 604
intermittent, with cardioplegic solution versus intermittent coronary perfusion with cold blood, myocardial protection by (Laks et al.), 158
post-, lung syndrome: comparison of Travenol bubble and membrane oxygenators (Byrick and Noble), 685
Pericardial effusions, uremic, conservative management of (Kwasnik et al.), 629
xenograft, Ionescu-Shiley, and Braunwald-Cutter and Björk-Shiley prostheses in mitral position, long-term clinical and hemodynamic evaluation of (Tandon et al.), 763
Perioperative myocardial infarction in patients with coronary artery disease with and without aorta–coronary artery bypass grafts (Mahar et al.), 533
results and patterns of (Young et al.), 528
Permanent cardiac pacemakers implanted in pleural space (Lynch et al.), 101
Pharyngoesophageal pouch, motor disorder in (Lichter), 272
Phrenic nerve paralysis, unilateral, postoperative, clinical implications of (Mickell et al.), 297
Physicians' assistants on university cardiothoracic surgical service: five-year update (Miller and Hatcher), 639
Pleural space, permanent cardiac pacemakers implanted in (Lynch et al.), 101
Pleurodesis, talc, treatment by: persistent chylothorax (Adler and Levinsky), 859
Pleurotomy during and after coronary artery bypass with internal mammary artery versus saphenous vein grafts, pulmonary effect of (Burgess et al.), 230
Polytetrafluoroethylene grafts, expanded, microporous, for aorta-pulmonary shunts in infants with complex cyanotic heart disease, use of: report of seven cases (Jennings et al.), 489
vascular graft, expanded, aorta–coronary artery revascularization with: preliminary report (Yokoyama et al.), 552
Porcine aortic heterograft, mechanical failure (leaflet disruption) of: rare cause of acute aortic insufficiency (Housman et al.), 212
Postembolic obstructions, chronic, of pulmonary arteries, surgical correction of (Cabrol et al.), 620
Postperfusion lung syndrome: comparison of Travenol bubble and membrane oxygenators (Byrick and Noble), 685
Potassium-induced cardioplegia: additive protection against ischemic myocardial injury during coronary revascularization (Craver et al.), 24
status of patients prior to open-heart surgery (Morgan et al.), 673
Pouch, pharyngoesophageal, motor disorder in (Lichter), 272
Presidential Address: As I remember them (Scannell), 145
History of coronary artery surgery (Connolly), 733
Prosthesis(es), Braunwald-Cutter and Björk-Shiley, and Ionescu-Shiley pericardial xenograft in mitral position, long-term clinical and hemodynamic evaluation of (Tandon et al.), 763
caged-ball, non–cloth-covered: second decade (Macmanus et al.), 788
valve, mitral, development of left ventricular–coronary sinus fistula following replacement of (Morritt et al.), 381
at high flow rates, in vitro hydrodynamic comparison of (Gabbay et al.), 771

Prosthetic valve endocarditis: comparison of heterograft tissue valves and mechanical valves (Rossiter et al.), 795
Protection, additive, against ischemic myocardial injury during coronary revascularization: potassium-induced cardioplegia (Craver et al.), 24
of ischemic myocardium: ultrastructural, enzymatic, and functional assessment of efficacy of various cardioplegic infusates (Jynge et al.), 2
volume-duration relationships and efficacy of myocardial infusates (Jynge et al.), 698
myocardial, cold cardioplegia versus hypothermia for: randomized clinical study (Conti et al.), 577
by intermittent perfusion with cardioplegic solution versus intermittent coronary perfusion with cold blood (Laks et al.), 158
during ischemic cardiac arrest: possible deleterious effects of glucose and mannitol in coronary infusates (Hearse et al.), 16
Pseudomonas infection of sternum and costal cartilages: report of three cases (Miller et al.), 723
Pulmonary, aorta-, shunts in infants with complex cyanotic heart disease, use of microporous expanded polytetrafluoroethylene grafts for: report of seven cases (Jennings et al.), 489
artery. *See* Artery.
atresia, surgical treatment of tetralogy of Fallot with (Alfieri et al.), 321
effect of pleurotomy during and after coronary artery bypass with internal mammary artery versus saphenous vein grafts (Burgess et al.), 230
embolism, massive, with circulatory failure: survival following sixty hours' support with membrane lung (Jardin et al.), 252
hyperinflation in ventricular septal defect (Oh et al.), 706
microembolism on arteriovenous shunt flow, effect of (Cheney et al.), 473
sequestration presenting as congestive heart failure (Ransom et al.), 378
stenosis and dextrocardia, successful repair of double-outlet right ventricle, complete atrioventricular canal, and atrioventricular discordance associated with (Danielson et al.), 710
trunk, anomalous left coronary artery from: long-term follow-up after ligation (Shrivastava et al.), 130
tuberculosis, active, and bronchogenic carcinoma, coexistent (Mok et al.), 469
Pump, assessment of isolated right atrium as (Murphy et al.), 483
Pumping, balloon, intra-aortic, on nutrient coronary flow in normal and ischemic myocardium, effect of (Swank et al.), 538

R

Reactivity, DNCB, in patients with primary lung cancer, sequential evaluation of: correlation with prognosis (Inoue et al.), 479
Reconstruction and resection, extensive, benign tumors of right atrium necessitating (Culliford et al.), 178
Reflux in infants and children, gastroesophageal fundoplication for management of (Fonkalsrud et al.), 655
problems, cohplex, gastroplasty and fundoplication in management of (Pearson et al.), 665
Repair, anteroseptal, techniques and results of ventricular aneurysmectomy with emphasis on (Walker et al.), 824
Repeat open intracardiac operation: analysis of fifty operations (English and Milstein), 56
Replacement(s), composite, of aortic valve and ascending aorta (Mayer et al.), 816
heterograft, of mitral valve, hemolytic anemia associated with (Myers et al.), 214
of mitral valve prosthesis, development of left ventricular–coronary sinus fistula following (Morritt et al.), 381
valve, aortic, isolated, with fascia lata and homograft valves, comparative analysis of (Soorae et al.), 46
in von Willebrand's disease (Young et al.), 218
mitral, repeated, left ventricular–coronary sinus fistula following (Miller et al.), 43
Resection(s) for bronchogenic carcinoma at Massachusetts General Hospital, four decades of experience with (Wilkins et al.), 364
chest wall, and forequarter amputation, transmediastinal, radical, modified technique for (Mansour and Powell), 358
of lung carcinoma, long-term survivors of (Shields et al.), 439
and reconstruction, extensive, benign tumors of right atrium necessitating (Culliford et al.), 178
sleeve, for primary bronchogenic carcinoma, twenty-year analysis of results of (Bennett and Abbey Smith), 840
Resuscitation, cardiopulmonary, optimizing myocardial supply/demand balance with α-adrenergic drugs during (Livesay et al.), 244
Revascularization, aorta–coronary artery, with expanded polytetrafluoroethylene vascular graft: preliminary report (Yokoyama et al.), 552
coronary, additive protection against ischemic myocardial injury during: potassium-induced cardioplegia (Craver et al.), 24
in patients with recent myocardial infarction, results of (Jones et al.), 545
Rheumatic mitral stenosis, closed versus open mitral commissurotomy in children with (Aryanpur et al.), 223
Risk factors in patients undergoing second aorta-coronary bypass procedure (Barboriak et al.), 111
Rupture, cardiac, acute, anatomic, clinical, and therapeutic features of: successful surgical management fourteen hours after myocardial infarction (Eisenmann et al.), 78

S

Samson Thoracic Surgical Society: Announcement of 1979 Annual Meeting, 143, 279, 421, 575, 731, 867
Senning operation for transposition of great arteries (Parenzan et al.), 305
Sequestration, pulmonary, presenting as congestive heart failure (Ransom et al.), 378
Serum of patients undergoing cardiac surgery, evaluation of lactate dehydrogenase isoenzyme patterns in (Papadopoulos and Hufnagel), 173
Service, surgical, cardiothoracic, university, physicians' assistants on: five-year update (Miller and Hatcher), 639
Shunt(s), aorta-pulmonary, in infants with complex cyanotic heart disease, use of microporous expanded polytetrafluoroethylene grafts for: report of seven cases (Jennings et al.), 489
flow, arteriovenous, effect of pulmonary microembolism on (Cheney et al.), 473
Sleeve resection for primary bronchogenic carcinoma, twenty-year analysis of results of (Bennett and Abbey Smith), 840

Small cell undifferentiated carcinoma of lung, combined therapy for (Mandelbaum et al.), 292
Solution, cardioplegic, effect of temperature of (Behrendt and Jochim), 353
versus intermittent coronary perfusion with cold blood, myocardial protection by intermittent perfusion with (Laks et al.), 158
hyperosmolar, colloid, hypothermic storage for 24 hours in: lung transplantation (Toledo-Pereyra and Condie), 846
Sonomicrometry, segmental mid-wall myocardial dimensions in man recorded by (Hill et al.), 235
Space, pleural, permanent cardiac pacemakers implanted in (Lynch et al.), 101
Stenosis, mitral, rheumatic, closed versus open mitral commissurotomy in children with (Aryanpur et al.), 223
pulmonary, and dextrocardia, successful repair of double-outlet right ventricle, complete atrioventricular canal, and atrioventricular discordance associated with (Danielson et al.), 710
subaortic, hypertrophic: operative methods utilized to relieve left ventricular outflow obstruction (Morrow), 423 (curr. tech.)
Sternum and costal cartilages, Pseudomonas infection of: report of three cases (Miller et al.), 723
Subaortic stenosis, hypertrophic: operative methods utilized to relieve left ventricular outflow obstruction (Morrow), 423 (curr. tech.)
Subclavian artery approach for insertion of intra-aortic balloon (Mayer), 61
Subdiaphragmatic inferior vena cava, surgery of tumors of: report of two cases and review of literature (Hill and Hetzer), 38
Substitute, aortic, ball-valve, unusual, long-term follow-up of (Shumacker et al.), 216
Superior vena cava, left, to left atrium and absence of coronary sinus, atrial septal defect associated with drainage of (Foster et al.), 718
Surgery, artery, coronary, history of (Connolly), 733 (Presidential Address)
coronary, survival after (Wisoff et al.), 108
open-heart, monitoring of electroencephalogram during: prospective analysis of 118 cases (Salerno et al.), 97
potassium status of patients after (Morgan et al.), 673
Surgical service, cardiothoracic, university, physicians' assistants on: five-year update (Miller and Hatcher), 639
Survival after coronary surgery (Wisoff et al.), 108
Syndrome, lung, postperfusion: comparison of Travenol bubble and membrane oxygenators (Byrick and Noble), 685

T

T cell population in patients with bronchogenic carcinoma, changes in (Shirakusa et al.), 262
Talc pleurodesis, treatment by: persistent chylothorax (Adler and Levinsky), 859
Temperature of cardioplegic solution, effect of (Behrendt and Jochim), 353
cross-clamp time, and cardioplegic agents on myocardial function after induced arrest, effect of (Kay et al.), 590
Tetralogy of Fallot with pulmonary atresia, surgical treatment of (Alfieri et al.), 321
Thoracic aorta, use of ringed intraluminal graft in surgical treatment of dissecting aneurysms of: new technique (Ablaza et al.), 390
Thoracic—Cont'd
neuroblastoma in infants and children, reasonable surgery for (Catalano et al.), 459
Thoracotomy, esophagectomy without (Orringer and Sloan), 643
Tracheal growth and healing (Burrington), 453
trans-, intubation: useful adjunct in cardiac surgical anesthesia (Raza et al.), 721
Tracheobronchial mucoepidermoid carcinoma: clinicopathological features and results of treatment (Leonardi et al.), 431
tree, bronchoplastic procedures in treatment of carcinoid tumors of (Okike et al.), 281
Transplantation, lung, human, extracorporeal membrane oxygenator support for (Nelems et al.), 28
hypothermic storage for 24 hours in colloid hyperosmolar solution (Toledo-Pereyra and Condie), 846
Transposition of great arteries, Senning operation for (Parenzan et al.), 305
total correction of: conduction disturbances in infants younger than three months of age (Turley and Ebert), 312
vulnerability of coronary arteries in surgery for (Anderson et al.), 135
Transtracheal intubation: useful adjunct in cardiac surgical anesthesia (Raza et al.), 721
Trauma, cervicothoracic, role of angiography in (Thomas et al.), 633
Tree, tracheobronchial, bronchoplastic procedures in treatment of carcinoid tumors of (Okike et al.), 281
Trunk, pulmonary, anomalous left coronary artery from: long-term follow-up after ligation (Shrivastava et al.), 130
Tuberculosis, pulmonary, active, and bronchogenic carcinoma, coexistent (Mok et al.), 469
Tumors, benign, of right atrium necessitating extensive resection and reconstruction (Culliford et al.), 178
carcinoid, of tracheobronchial tree, bronchoplastic procedures in treatment of (Okike et al.), 281
of subdiaphragmatic inferior vena cava, surgery of: report of two cases and review of literature (Hill and Hetzer), 38

U

Ultrastructure, myocardial, following hypothermic anoxic arrest, quantitative evaluation of (Sunamori et al.), 518
Uremic pericardial effusions, conservative management of (Kwasnik et al.), 629

V

Valve, aortic, and ascending aorta, composite replacement of (Mayer et al.), 816
endocarditis, prosthetic: comparison of heterograft tissue valves and mechanical valves (Rossiter et al.), 795
mitral, hemolytic anemia associated with heterograft replacement of (Myers et al.), 214
prosthesis(es), mitral, development of left ventricular–coronary sinus fistula following replacement of (Morritt et al.), 381
at high flow rates, in vitro hydrodynamic comparison of (Gabbay et al.), 771
replacement(s), aortic, isolated, with fascia lata and homograft valves, comparative analysis of (Soorae et al.), 46
in von Willebrand's disease (Young et al.), 218
mitral, repeated, left ventricular –coronary sinus fistula following (Miller et al.), 43
tissue, heart, glutaraldehyde-preserved, fatigue-induced damage in (Broom), 202
Valvotomy, aortic, closed, in infants: late results (Trinkle et al.), 198

Vascular origin, mediastinal masses of: review (Kelley et al.), 559
Vena cava, inferior, subdiaphragmatic, surgery of tumors of: report of two cases and review of literature (Hill and Hetzer), 38
superior, left, to left atrium and absence of coronary sinus, atrial septal defect associated with drainage of (Foster et al.), 718
Ventricle, left, false aneurysm of: surgical treatment (Yakierevitch et al.), 556
right, double-outlet, associated with atrioventricular discordance, surgical management of (Tabry et al.), 336
complete atrioventricular canal, and atrioventricular discordance associated with dextrocardia and pulmonary stenosis, successful repair of (Danielson et al.), 710
with restrictive ventricular septal defect (Marin-Garcia et al.), 853
Ventricular aneurysmectomy with emphasis on anteroseptal repair, techniques and results of (Walker et al.), 824
–coronary sinus fistula, left, following repeated mitral valve replacements (Miller et al.), 43
following replacement of mitral valve prosthesis, development of (Morritt et al.), 381
Ventricular—Cont'd
function, left, postoperative, continuous epicardial echocardiographic assessment of (Gaudiani et al.), 64
outflow obstruction, left, operative methods utilized to relieve: hypertrophic subaortic stenosis (Morrow), 423 (curr. tech.)
septal defect, pulmonary hyperinflation in (Oh et al.), 706
Volume-duration relationships and efficacy of myocardial infusates: protection of ischemic myocardium (Jynge et al.), 698
Von Willebrand's disease, aortic valve replacement in (Young et al.), 218

W

Waterston anastomosis, cause of kinking of right pulmonary artery in: growth phenomenon (Rao and Ellison), 126
Wounds traversing two or more cardiac chambers: case presentation of two survivors and review of literature (Enders et al.), 83

X

Xenograft, pericardial, Ionescu-Shiley, and Braunwald-Cutter and Björk-Shiley prostheses in mitral position, long-term clinical and hemodynamic evaluation of (Tandon et al.), 763

The Journal of THORACIC AND CARDIOVASCULAR SURGERY

Official organ, The American Association for Thoracic Surgery and The Samson Thoracic Surgical Society

Editor DWIGHT C. McGOON, *Rochester, Minn.*

Associate editors PHILIP E. BERNATZ, *Rochester, Minn.*
MICHAEL P. KAYE, *Rochester, Minn.*

A

ABBOTT, JOSEPH A., COUSINEAU, MARTIN, CHEITLIN, MELVIN, THOMAS, ARTHUR N., and LIM, ROBERT C., JR. Late sequelae of penetrating cardiac wounds, 510, 518

ABE, TADAAKI, KURIBAYASHI, RYOSEI, SATO, MAMORU, NIEDA, SHIGEO, TAKAHASHI, MASAKI, and OKUBO, TADASHI. Successful Jatene operation for transposition of the great arteries with intact ventricular septum: a case report, 64

ABELMANN, WALTER H. *(See* RADVANY ET AL.*)*, 97

ABU-AISHAH, N. *(See* RASTAN ET AL.*)*, 659, 669

ADAMS, PETER X., CUNNINGHAM, JOSEPH N., JR., TREHAN, NARESH K., BRAZIER, JOHN R., REED, GEORGE E., and SPENCER, FRANK C. Clinical experience using potassium-induced cardioplegia with hypothermia in aortic valve replacement, 564

ADAPPA, M. GOKULDAS, JACOBSON, LESTER B., HETZER, ROLAND, HILL, J. DONALD, KAMM, BARBRA, and KERTH, WILLIAM J. Cold hyperkalemic cardiac arrest versus intermittent aortic cross-clamping and topical hypothermia for coronary bypass surgery, 171, 178

—. *(See* HETZER ET AL.*)*, 651

AGIER, B. *(See* HURET ET AL.*)*, 476

AKINS, CAREY W. *(See* WILSON ET AL.*)*, 786

ALEXANDER, JOHN M. *(See* FEE ET AL.*)*, 519

ALLEN, ROBERT H., STINSON, EDWARD B., OYER, PHILIP E., and SHUMWAY, NORMAN E. Predictive variables in reoperation for coronary artery disease, 186

ALMOND, CARL H. *(See* JUNG ET AL.*)*, 237, 244

ANDERSON, ALFRED J. *(See* BARBORIAK ET AL.*)*, 47

ANDERSON, RICHARD P. Discussion of influence of coronary bypass on longevity, 37

ANGELL, WILLIAM W. Discussion of atypical mycobacteria and xenograft valve, 335

ANKENEY, JAY *(See* HIRSCHFELD ET AL.), 446

—. Discussion of chronic stable angina pectoris, 15

ANSBRO, JOHN (*See* HETZER et al.), 651

ARKIN, CHARLES F., SHAHSAVARI, MEHRAN, COPELAND, BRADLEY E., and KIM, AGNES. Evaluation of the activated clotting time to control heparin and protamine dosage in open-heart surgery, 790 (letter)

ASKANAZI, JEFFREY, WAX, STENNIS D., NEVILLE, JOHN F., JR., HANSON, E. LAWRENCE, KANE, PETER B., MARKARIAN, BEDROS, BREDENBERG, CARL E., and WEBB, WATTS R. Prevention of pulmonary insufficiency through prophylactic use of PEEP and rapid respiratory rates, 267

AUVIL, JACKSON *(See* ENGELMAN ET AL.*)*, 555

B

BAILEY, LEONARD L., LAUGHLIN, LAWRENCE L., MCDONALD, MICHAEL L., and PETRY, EUGENE L. Corrected transposition: another approach for repair of associated intracardiac malformations, 815

BAIN, W. H. *(See* BREMNER ET AL.*)*, 392

—. *(See* TAYLOR ET AL.*)*, 569, 574, 579

BAIRD, S. *(See* BREMNER ET AL.*)*, 392

BAKER, EARL J., HAWKINS, JOSEPH A., and WASKOW, ELEANOR A. Surgery for coccidioidomycosis in 59 diabetic patients with special reference to related immunologic factors, 680, 687

BARBORIAK, JOSEPH J., HUGHES, C. VINCENT, ANDERSON, ALFRED J., and RIMM, ALFRED A. Effect of aorta-coronary bypass operation on factors precipitating angina, 47

BARDET, J. *(See* HURET ET AL.*)*, 476

BARNER, HENDRICK B. Allogenic saphenous vein for coronary bypass, 902 (letter)

—. *(See* TYRAS ET AL.*)*, 331

BARRATT-BOYES, BRIAN G. *(See* WHIGHT ET AL.*)*, 52

BARTLEY, THOMAS. Discussion of thrombotic obstruction with Björk-Shiley valves, 330

BAUMGARTNER, WILLIAM A., REITZ, BRUCE A., BIEBER, CHARLES P., OYER, PHILIP E., SHUMWAY, NORMAN E., and STINSON, EDWARD B. Current expectations in cardiac transplantation, 525, 529

BEASTALL, GRAHAM S. *(See* TAYLOR ET AL.*)*, 579

BECK, WALTER *(See* FORMAN ET AL.*)*, 595

BEHI, FRED, CHANG, SONIA, and WELCH, THOMAS. Malfunction of Cutter-Smeloff mitral prosthesis: an echocardiographic diagnosis, 313

BEHRENDT, DOUGLAS M. *(See* SPOONER ET AL.*)*, 232

BELL, DAVID M., GOLDMANN, DONALD A., HOPKINS, CYRUS C., KARCHMER, ADOLF W., and MOELLERING, ROBERT C., JR. Unreliability of fever and leukocytosis in the diagnosis of infection after cardiac valve surgery, 87

BELL, WILLIAM R. *(See* SCHAFF ET AL.*)*, 632

BERGER, ROBERT L. *(See* ROMERO ET AL.*)*, 832

BERMUDEZ, GUSTAVO *(See* MIDELL and BERMUDEZ*)*, 785

BERNATZ, PHILIP E. *(See* OKIKE ET AL.*)*, 363, 372

BERNHARD, WILLIAM F. *(See* RADVANY ET AL.*)*, 97

BERNHARD, WILLIAM H. (*See* LOSAY ET AL.), 248

BEUREN, A. J. *(See* RASTAN ET AL.*)*, 659

BIEBER, CHARLES P. *(See* BAUMGARTNER ET AL.*)*, 525

BIGELOW, JOHN C. *(See* KRAUSE ET AL.*)*, 499

—.Discussion of coronary artery grafting with circular grafts, 166

BIRCKS, WOLFGANG. Anomalous origin of left coronary artery from pulmonary artery, 785 (letter)

*January, pp. 1-160; February, pp. 161-320; March, pp. 321-486; April, pp. 487-650; May, pp. 651-792; June, pp. 793-930.

BIXLER, THOMAS J., GARDNER, TIMOTHY J., FLAHERTY, JOHN T., GOLDMAN, RICHARD A., and GOTT, VINCENT L. Effects of procaine-induced cardioplegia on myocardial ischemia, myocardial edema, and postarrest ventricular function: a comparison with potassium-induced cardioplegia and hypothermia, 886

Subject index*

A

Abnormalities, coagulation, in patients undergoing myocardial revascularization (Zajtchuk et al.), 168
vascular, associated with supravalvular aortic stenosis, surgical management of (Landes et al.), 80
Activated clotting time to control heparin and protamine dosage in open-heart surgery, evaluation of (Arkin et al.), 790 (letter); Reply (Bull et al.), 791
Activation, re-entrant, role of rhythm versus rate in: ventricular arrhythmias in healing myocardial infarction (Hope et al.), 458
Adrenal secretion of cortisol, effects on, II. Comparative studies of pulsatile and nonpulsatile flow during cardiopulmonary bypass (Taylor et al.), 574
Allogenic saphenous vein for coronary bypass (Barner), 902 (letter); Reply (Tice), 903
Allografts, cardiac, canine, orthotopic, alterations in total and regional myocardial blood flow during acute rejection of (Salomon et al.), 542
Alternative to breathing (Kolobow et al.), 261
American Association for Thoracic Surgery: Announcement of 1978 Annual Meeting, 151, 317
Announcement of 1979 Annual Meeting, 904
Graham Traveling Fellowship, 906
Program of 1978 Annual Meeting, 483

*January, pp. 1-160; February, pp. 161-320; March, pp. 321-486; April, pp. 487-650; May, pp. 651-792; June, pp. 793-930.

American—Cont'd
Board of Thoracic Surgery: Announcement of 1979 examination, 154, 320, 792, 906
AMP, cyclic, plasma, and insulin in cardiac surgery, levels of (Chiu and McArdle), 286
Anastomosis(es), Blalock-Taussig, chylothorax and chylopericardial tamponade following (Hargus et al.), 642
saphenous-coronary, as studied by cast-injection technique, internal configuration of (Young et al.), 179
Anesthesia, local, lung biopsy with: report on 100 cases with use of recently introduced technique (Thompson), 429
Anesthetic experience with cardiac transplantation (Fernando et al.), 531
Aneurysm, sinus of Valsalva, and aortico–left ventricular tunnel: case report with operative repair (Spooner et al.), 232
ventricular, early and late results of resection of (Okies et al.), 255
Angina, effect of aorta-coronary bypass operation on factors precipitating (Barboriak et al.), 47
pectoris, stable, chronic, survival of men treated for: cooperative randomized study (Read et al.), 1
unstable, delayed semielective coronary bypass surgery for: clinical follow-up and results of postoperative treadmill exercise (Huret et al.), 476
Anomalous inferior vena cava with azygos continuation and combined ostium primum and secundum atrial septal defects, cyanosis in patient with: case report and surgical considerations (Jung et al.), 244
origin of left coronary artery from pulmonary artery (Bircks), 785 (letter); Reply (Wilson et al.), 786
main coronary artery from anterior sinus of Valsalva with myocardial infarction (Murphy et al.), 282
pulmonary venous connection, total: long-term results following repair in infancy (Whight et al.), 52
return, total, infradiaphragmatic, into inferior vena cava, successful surgical correction of: fourteen year follow-up (Porter et al.), 68
Anomaly, Ebstein, and Kent bundle, surgical treatment of tachyarrhythmias in patients with both (Sealy et al.), 847
Anoxia, myocardial, initial, during aortic valve replacement, myocardial reactive hyperemia caused by (Kairaluoma et al.), 716
Antibiotics, prophylactic, and insertion of permanent transvenous cardiac pacemakers (Hartstein et al.), 219
Anticoagulation, incidence of emboli with cloth-covered Starr-Edwards valve without anticoagulation and with varying forms of: analysis of 183 patients followed for 3½ years (Moggio et al.), 296
prophylactic, in patients undergoing coronary bypass grafting, delayed cardiac tamponade associated with: early diagnosis with two-dimensional echocardiography (Hochberg et al.), 777
Antigen, carcinoembryonic, as monitor of successful surgical resection in 130 patients with carcinoma of lung (Vincent et al.), 734
Antilymphoblast globulin, cyclophosphamide, or methylprednisolone, graft and/or donor pretreatment with: improved survival of heart transplants (Toledo-Pereyra and Condie), 536
Aorta, coarctation of, in infancy, early and late results of aortoplasty with left subclavian flap for (Hamilton et al.), 699
and pulmonic stenosis, experimental, in fetal lamb, response to (Burrington), 819

Aorta—Cont'd
-coronary bypass conduit, twisting of: complication of coronary surgery (Roberts et al.), 772
operation on factors precipitating angina, effect of (Barboriak et al.), 47
surgery and aortic valve replacement: results with perfusion of proximal and distal coronary arteries (Macmanus et al.), 865
thoracic, descending, with TDMAC-heparin shunt, repair of lesions of (Cukingnan et al.), 227
Aortic arch, interrupted, with aortic septal defect (Sissman), 902 (letter)
right, with aberrant left subclavian artery and left ligamentum arteriosum, surgical repair of (Jung et al.), 237
cross-clamping, intermittent, and topical hypothermia versus cold hyperkalemic cardiac arrest for coronary bypass surgery (Adappa et al.), 171
and mitral prostheses, tilting disc, Lillehei-Kaster, hemodynamic assessment of (Forman et al.), 595
position, evaluation of in vivo function of Hancock porcine xenograft in (Johnson et al.), 599
and pulmonary leaflets, observations of collagen and elastin structures in wet whole mounts of (Broom), 121
stenosis and in aortic incompetence, effects of successful, uncomplicated valve replacement on ventricular hypertrophy, volume, and performance in (Pantely et al.), 383
supravalvular, surgical management of vascular abnormalities associated with (Landes et al.), 80
valve. *See* Valve.
Aortico–left ventricular tunnel and sinus of Valsalva aneurysm: case report with operative repair (Spooner et al.), 232
Aortoplasty with left subclavian flap for coarctation of aorta in infancy, early and late results of (Hamilton et al.), 699
Aortoventriculoplasty in 21 consecutive patients with left ventricular outflow tract obstruction, results of (Rastan et al.), 659
Apex of left ventricle, alternative approach to (Grunwald), 646
Arch, aortic, right, with aberrant left subclavian artery and left ligamentum arteriosum, surgical repair of (Jung et al.), 237
Arrest, cardiac, hyperkalemic, cold, versus intermittent aortic cross-clamping and topical hypothermia for coronary bypass surgery (Adappa et al.), 171
ischemic, myocardial protection during: importance of magnesium in cardioplegic infusates (Hearse et al.), 877
ischemic, significance of multidose cardioplegia and hypothermia in myocardial preservation during (Engelman et al.), 555
Arrhythmias, ventricular, in healing myocardial infarction: role of rhythm versus rate in re-entrant activation (Hope et al.), 458
Arterial supply, pulmonary, in patients with truncus arteriosus, patterns of (Rossiter et al.), 73
Artery(ies) bypass, coronary, and major noncardiac surgery, concomitant (Dalton et al.), 621
coronary, left, from pulmonary artery, anomalous origin of (Bircks), 785 (letter); Reply (Wilson et al.), 786
main, left, from anterior sinus of Valsalva with myocardial infarction, anomalous origin of (Murphy et al.), 282
proximal and distal, results with perfusion of: aortic valve replacement and aorta-coronary bypass surgery (Macmanus et al.), 865
second, superior: internal mammary bypass graft (Jones et al.), 625

Artery(ies)—Cont'd
disease, coronary, diffuse, results of combined coronary endarterectomy and coronary bypass for (Hochberg et al.), 38
predictive variables in reoperation for (Allen et al.), 186
fistula, trachea–innominate, management of (Ramesh and Gazzaniga), 138
flow, bronchial, transplantation of left lung into right hemithorax to facilitate immediate reconstitution of (Veith et al.), 141
grafting, coronary, with circular vein grafts, optimal patency rates obtained in (Grondin et al.), 161
grafting, coronary, with serial determinations of serum CPK MB isoenzyme, evaluation of myocardial damage during (Delva et al.), 467
great, transposition of, with intact ventricular septum, successful Jatene operation for: case report (Abe et al.), 64
mammary, internal, quantitative assessment of myocardial performance and graft patency following coronary bypass with (Vogel et al.), 487
revascularization, coronary, direct, reoperation in symptomatic patients after (Krause et al.), 499
subclavian, left, aberrant, and left ligamentum arteriosum, surgical repair of right aortic arch with (Jung et al.), 237
Atrial septal defect(s), ostium primum and secundum, combined, and anomalous inferior vena cava with azygos continuation, cyanosis in patient with: case report and surgical considerations (Jung et al.), 244
primum, repair of: results, course, and prognosis (Losay et al.), 248
secundum, surgery for mitral and tricuspid insufficiency with (Shigenobu et al.), 290
Atypical mycobacteria and xenograft valve (Tyras et al.), 331
Autograft, bronchial, subcutaneously implanted, in dogs, method for experimental induction of bronchogenic carcinoma in (Kobayashi et al.), 434
Autotransfusion of shed mediastinal blood after cardiac surgery: prospective study (Schaff et al.), 632
Azygos continuation, cyanosis in patient with combined ostium primum and secundum atrial septal defects and anomalous inferior vena cava with: case report and surgical considerations (Jung et al.), 244

B

Ball variance and fracture of mitral valve prosthesis causing recurrent thromboemboli (Joyce et al.), 309
Benign and malignant variants: localized mesothelioma of pleura (Okike et al.), 363
Bioprosthesis, xenograft, Hancock, for aortic valve replacement (with emphasis on management of small aortic root), hemodynamic and clinical evaluation of (Jones et al.), 300
Biopsy, lung, with local anesthesia: report on 100 cases with use of recently introduced technique (Thompson), 429
Björk-Shiley valves, acute thrombotic obstruction with: diagnostic and surgical considerations (Moreno-Cabral et al.), 321
Blades, Brian Brewer (1906-1977), 782 (obit.)
Blalock-Taussig anastomosis, chylothorax and chylopericardial tamponade following (Hargus et al.), 642
Blood flow and metabolism, myocardial, regional, distal to critical coronary stenosis in fibrillating heart during alternate periods of pulsatile and nonpulsatile perfusion, comparison of (Ciardullo et al.), 193
Blood flow—Cont'd
myocardial, total and regional, during acute rejection of orthotopic canine cardiac allografts, alterations in (Salomon et al.), 542
mediastinal, shed, after cardiac surgery, autotransfusion of: prospective study (Schaff et al.), 632
Blunt trauma, operative stabilization for flail chest after (Thomas et al.), 793
Breathing, alternative to (Kolobow et al.), 261
Bronchial artery flow, transplantation of left lung into right hemithorax to facilitate immediate reconstitution of (Veith et al.), 141
autograft, subcutaneously implanted, in dogs, method for experimental induction of bronchogenic carcinoma in (Kobayashi et al.), 434
Bronchogenic carcinoma in subcutaneously implanted bronchial autograft in dogs, method for experimental induction of (Kobayashi et al.), 434
transbronchial mucus transfer of (Cattaneo et al.), 585
Bundle, conduction, mapping of (Siegel et al.), 786 (letter); Reply (Schatz et al.), 787
electrograms, His, clinical use of (Scherlag), 788 (letter); Reply (Gould), 789
Kent, and Ebstein anomaly, surgical treatment of tachyarrhythmias in patients with both (Sealy et al.), 847
Bypass, artery, coronary, and major noncardiac surgery, concomitant (Dalton et al.), 621
cardiopulmonary, comparative studies of pulsatile and nonpulsatile flow during. I. Pulsatile system employed and its hematologic effects (Taylor et al.), 569
II. Effects on adrenal secretion of cortisol (Taylor et al.), 574
III. Response of anterior pituitary gland to thyrotropin-releasing hormone (Taylor et al.), 579
hypothalamo-pituitary-thyroid axis function during (Bremner et al.), 392
pressure-flow characteristics of coronary collateral circulation during: effects of hemodilution (Kleinman et al.), 17
upon pulmonary gas exchange, effects of (Rea et al.), 104
conduit, aorta-coronary, twisting of: complication of coronary surgery (Roberts et al.), 772
coronary, allogenic saphenous vein for (Barner), 902 (letter); Reply (Tice), 903
and coronary endarterectomy, combined, for diffuse coronary artery disease, results of (Hochberg et al.), 38
does it increase longevity? (Isom et al.), 28
with Gore-Tex graft (Molina et al.), 769
with internal mammary artery, quantitative assessment of myocardial performance and graft patency following (Vogel et al.), 487
graft, mammary, internal: superior second coronary artery (Jones et al.), 625
grafting, coronary, delayed cardiac tamponade associated with prophylactic anticoagulation in patients undergoing: early diagnosis with two-dimensional echocardiography (Hochberg et al.), 777
operation, aorta-coronary, on factors precipitating angina, effect of (Barboriak et al.), 47
surgery, aorta-coronary, and aortic valve replacement: results with perfusion of proximal and distal coronary arteries (Macmanus et al.), 865

Bypass surgery—Cont'd
coronary, cold hyperkalemic cardiac arrest versus intermittent aortic cross-clamping and topical hypothermia for (Adappa et al.), 171
semielective, delayed, for unstable angina pectoris: clinical follow-up and results of postoperative treadmill exercise (Huret et al.), 476
venoarterial, with membrane lung for acute respiratory failure, pulmonary gas exchange during (Lemaire et al.), 839

C

Cancer, lung, in patients over age of 70 years, surgical treatment of (Harviel et al.), 802
Carbon dioxide membrane lung: *See* Alternative to breathing (Kolobow et al.), 261
Carcinoembryonic antigen as monitor of successful surgical resection in 130 patients with carcinoma of lung (Vincent et al.), 734
Carcinoma, bronchogenic, in subcutaneously implanted bronchial autograft in dogs, method for experimental induction of (Kobayashi et al.), 434
transbronchial mucus transfer of (Cattaneo et al.), 585
of lung, carcinoembryonic antigen as monitor of successful surgical resection in 130 patients with (Vincent et al.), 734
squamous cell, associated, report of two cases, one with: leiomyosarcoma of esophagus (Gaede et al.), 740
Cardiac allografts, canine, orthotopic, alterations in total and regional myocardial blood flow during acute rejection of (Salomon et al.), 542
arrest, hyperkalemic, cold, versus intermittent aortic cross-clamping and topical hypothermia for coronary bypass surgery (Adappa et al.), 171
ischemic, myocardial protection during: importance of magnesium in cardioplegic infusates (Hearse et al.), 877
hypothermia evaluated by ultrastructural studies in man (Engedal et al.), 548
intra-, malformation, associated, another approach to: corrected transposition (Bailey et al.), 815
pacemakers, transvenous, permanent, prophylactic antibiotics and insertion of (Hartstein et al.), 219
surgery, levels of plasma cyclic AMP and insulin in (Chiu and McArdle), 286
Marfan syndrome and (Davis et al.), 505
tamponade, delayed, associated with prophylactic anticoagulation in patients undergoing coronary bypass grafting: early diagnosis with two-dimensional echocardiography (Hochberg et al.), 777
transplantation, anesthetic experience with (Fernando et al.), 531
current expectations in (Baumgartner et al.), 525
valve surgery, unreliability of fever and leukocytosis in diagnosis of infection after (Bell et al.), 87
wounds, penetrating, late sequelae of (Abbott et al.), 510
Cardiogenic shock, postoperative, mechanical circulatory support in (Radvany et al.), 97
Cardioplegia in hypothermia, intraoperative myocardial protection by: clinical findings (Bleese et al.), 405
multidose, and hypothermia in myocardial preservation during ischemic arrest, significance of (Engelman et al.), 555
potassium-induced, with hypothermia in aortic valve replacement, clinical experience using (Adams et al.), 564
Cardioplegia—Cont'd
procaine-induced, on myocardial ischemia, myocardial edema, and postarrest ventricular function, effects of: comparison with potassium-induced cardioplegia and hypothermia (Bixler et al.), 886
Cardioplegic infusates, importance of magnesium in: myocardial protection during ischemic cardiac arrest (Hearse et al.), 877
Cardiopulmonary bypass. *See* Bypass.
disease, severe, and diaphragmatic hernia, use of tolazoline in newborn infants with: preliminary report (Moodie et al.), 725
Cast-injection technique, internal configuration of saphenous-coronary anastomoses as studied by (Young et al.), 179
Catheterization and exercise results following total surgical correction of tetralogy of Fallot, comparison of (Hirschfeld et al.), 446
Cells, muscle, smooth, in neointimae of synthetic vascular prostheses, pattern of arrangement of (Noishiki), 894
Chamber, outlet, conducting tissues in primitive ventricle with: two different possibilities (Wenink), 747
Chemotherapy, surgery, and irradiation, improved survival with: pulmonary resection in children with metastatic osteogenic sarcoma (Giritsky et al.), 354
Chest, flail, after blunt trauma, operative stabilization for (Thomas et al.), 793
massive impalement wound of: case report (Romero et al.), 832
Children with metastatic osteogenic sarcoma, pulmonary resection in: improved survival with surgery, chemotherapy, and irradiation (Giritsky et al.), 354
Chordae tendineae, ruptured, of mitral valve with autologous pericardial chordae, replacement of (Rittenhouse et al.), 870
Chylopericardial tamponade and chylothorax following Blalock-Taussig anastomosis (Hargus et al.), 642
Chylothorax and chylopericardial tamponade following Blalock-Taussig anastomosis (Hargus et al.), 642
Circulation, collateral, coronary, during cardiopulmonary bypass, pressure-flow characteristics of: effects of hemodilution (Kleinman et al.), 17
Circulatory support, mechanical, in postoperative cardiogenic shock (Radvany et al.), 97
Closure, sternal, inexpensive (Tabry), 902 (letter); Reply (Rubio), 902
Clotting time, activated, to control heparin and protamine dosage in open-heart surgery, evaluation of (Arkin et al.), 790 (letter); Reply (Bull et al.), 791
Coagulation abnormalities in patients undergoing myocardial revascularization (Zajtchuk et al.), 168
Coarctation of aorta in infancy, early and late results of aortoplasty with left subclavian flap for (Hamilton et al.), 699
and pulmonic stenosis, experimental, in fetal lamb, response to (Burrington), 819
Coarctectomy, post-, hypertension, sodium nitroprusside and propranolol therapy for management of (Will et al.), 722
Coccidioidomycosis in 52 diabetic patients with special reference to related immunologic factors, surgery for (Baker et al.), 680
Collagen and elastin structures in wet whole mounts of pulmonary and aortic leaflets, observation of (Broom), 121
Conducting tissues in primitive ventricle with outlet chamber: two different possibilities (Wenink), 747

Conduction bundle, mapping of (Siegel et al.), 786 (letter); Reply (Schatz et al.), 787
Conduit, bypass, aorta-coronary, twisting of: complication of coronary surgery (Roberts et al.), 772
repair for complex congenital heart disease: late follow-up (Heck et al.), 806
Congenital heart disease, complex, conduit repair for: late follow-up (Heck et al.), 806
Contractile damage from reperfusion after transient ischemia in dog (Smith et al.), 452
Coronary arteriovenous fistula, congenital, terminating in left ventricle (Kiso and Ishikura), 784 (letter); Reply (Midell and Bermudez), 785
artery. *See* Artery.
bypass. *See* Bypass.
collateral circulation during cardiopulmonary bypass, pressure-flow characteristics of: effects of hemodilution (Kleinman et al.), 17
perfusion, intermittent, normothermic, functional evaluation of: experimental study (Wakabayashi et al.), 414
-saphenous anastomoses as studied by cast-injection technique, internal configuration of (Young et al.), 179
stenosis, critical, in fibrillating heart during alternate periods of pulsatile and nonpulsatile perfusion, comparison of regional myocardial blood flow and metabolism distal to (Ciardullo et al.), 193
surgery, complication of: twisting of aorta-coronary bypass conduit (Roberts et al.), 772
Corrected transposition: another approach for repair of associated intracardiac malformations (Bailey et al.), 815
Correspondence
Allogenic saphenous vein for coronary bypass (Barner), 902
Reply (Tice), 903
Anomalous origin of left coronary artery from pulmonary artery (Bircks), 785
Reply (Wilson et al.), 786
Chronic pericardial effusion owing to postpericardiotomy syndrome (Sade), 789
Reply (McCabe), 789
Clinical use of His bundle electrograms (Scherlag), 788
Reply (Gould), 789
Congenital coronary arteriovenous fistula terminating in left ventricle (Kiso and Ishikura), 784
Reply (Midell and Bermudez), 785
Evaluation of activated clotting time to control heparin and protamine dosage in open-heart surgery (Arkin et al.), 790
Reply (Bull et al.), 791
"General" versus "noncardiac" thoracic surgery (Bryant), 784
Inexpensive sternal closure (Tabry), 902
Reply (Rubio), 902

Mapping of conduction bundle (Siegel et al.), 786
Reply (Schatz et al.), 787
Cortisol, effects on adrenal secretion of, II. Comparative studies of pulsatile and nonpulsatile flow during cardiopulmonary bypass (Taylor et al.), 574
CPK MB isoenzyme, serum, evaluation of myocardial damage during coronary artery grafting with serial determinations of (Delva et al.), 467
Cross-clamping, aortic, intermittent, and topical hypothermia versus cold hyperkalemic cardiac arrest for coronary bypass surgery (Adappa et al.), 171
Cutter-Smeloff mitral prosthesis, malfunction of: echocardiographic diagnosis (Behi et al.), 313
Cyanosis in patient with combined ostium primum and secundum atrial septal defects and anomalous inferior vena cava with azygos continuation: case report and surgical considerations (Jung et al.), 244
Cyclic AMP, plasma, and insulin in cardiac surgery, levels of (Chiu and McArdle), 286
Cyclophosphamide, methylprednisolone, or antilymphoblast globulin, graft and/or donor pretreatment with: improved survival of heart transplants (Toledo-Pereyra and Condie), 536

D

Damage, contractile, from reperfusion after transient ischemia in dog (Smith et al.), 452
myocardial, during coronary artery grafting with serial determinations of serum CPK MB isoenzyme, evaluation of (Delva et al.), 467
Defect(s) primum, septal, atrial, repair of: results, course, and prognosis (Losay et al.), 248
septal, aortic, interrupted aortic arch with (Sissman), 902 (letter)
atrial, ostium primum and secundum, combined, and anomalous inferior vena cava with azygos continuation, cyanosis in patient with: case report and surgical considerations (Jung et al.), 244
secundum, surgery for mitral and tricuspid insufficiency with (Shigenobu et al.), 290
ventricular, associated with left ventricular outflow tract obstruction below the defect (Dirksen et al.), 688
in infants, surgical management of (McNicholas et al.), 346
Defibrillation, ventricular, direct, in man, electrical dose for (Tacker et al.), 224
Diabetic patients, 52, with special reference to related immunologic factors, surgery for coccidioidomycosis in (Baker et al.), 680
Diaphragm pacing: application to patient with chronic obstructive pulmonary disease (Glenn et al.), 273
Diaphragmatic hernia and severe cardiopulmonary disease, use of tolazoline in newborn infants with: preliminary report (Moodie et al.), 725
infra-, total anomalous pulmonary venous return into inferior vena cava, successful surgical correction of: 14 year follow-up (Porter et al.), 68
Disease(s), artery, coronary, diffuse, results of combined coronary endarterectomy and coronary bypass for (Hochberg et al.), 38
predictive variables in reoperation for (Allen et al.), 186
cardiopulmonary, severe, and diaphragmatic hernia, use of tolazoline in newborn infants with: preliminary report (Moodie et al.), 725
heart, congenital, complex, conduit repair for: late follow-up (Heck et al.), 806
mediastinal, ^{75}Se-selenomethionine scintigraphy in (Masaoka and Kyo), 419
pulmonary, obstructive, chronic, application to patient with: diaphragm pacing (Glenn et al.), 273
Disruption, spontaneous, late, of porcine xenograft mitral valve: clinical, hemodynamic, echocardiographic, and pathological findings (Brown et al.), 606
Diversion, esophageal, management by: giant tracheoesophageal fistula (Utley et al.), 373

Ductus, patent, ligation of: technical considerations at different ages (Wright and Newman), 695

E

Ebstein anomaly and Kent bundle, surgical treatment of tachyarrhythmias in patients with both (Sealy et al.), 847
Echocardiographic diagnosis: malfunction of Cutter-Smeloff mitral prosthesis (Behi et al.), 313
Echocardiography, two-dimensional, early diagnosis with: delayed cardiac tamponade associated with prophylactic anticoagulation in patients undergoing coronary bypass grafting (Hochberg et al.), 777
Effusion, pericardial, chronic, owing to postpericardiotomy syndrome (Sade), 789 (letter); Reply (McCabe), 789
Elastin and collagen structures in wet whole mounts of pulmonary and aortic leaflets, observations of (Broom), 121
Elastofibroma: case report and literature review (Peters and Fisher), 836
Elderly: *See* Surgical treatment of lung cancer in patients over age of 70 years, 802
Electrical dose for direct ventricular defibrillation in man (Tacker et al.), 224
Electrode, myocardial, temporary, improved design of (Yokoyama and Wada), 443
Electrograms, His bundle, clinical use of (Scherlag), 788 (letter); Reply (Gould), 789
Emboli with cloth-covered Starr-Edwards valve without anticoagulation and with varying forms of anticoagulation, incidence of: analysis of 183 patients followed for 3½ years (Moggio et al.), 296
Embolism, pulmonary, massive, surgical management of (Tschirkov et al.), 730
septic, and infarction, clinical spectrum of (MacMillan et al.), 670
Endarterectomy, coronary, and coronary bypass, combined, for diffuse coronary artery disease, results of (Hochberg et al.), 38
Endocarditis related to transvenous pacemakers: syndromes and surgical implications (Bryan et al.), 758
Epidemics, *Mycobacterium fortuitum,* after open-heart surgery (Robicsek et al.), 91
Esophageal diversion, management by: giant tracheoesophageal fistula (Utley et al.), 373
sphincter pressure, lower, intraoperative measurement of (Hill), 378
Esophagus, leiomyosarcoma of: report of two cases, one with associated squamous cell carcinoma (Gaede et al.), 740
Exercise and catheterization results following total surgical correction of tetralogy of Fallot, comparison of (Hirschfeld et al.), 446
treadmill, postoperative, clinical follow-up and results of: delayed semielective coronary bypass surgery for unstable angina pectoris (Huret et al.), 476

F

Failure, myocardial, after aortic valve replacement, recovery from (Schwarz et al.), 854
respiratory, acute, pulmonary gas exchange during venoarterial bypass with membrane lung for (Lemaire et al.), 839
Fallot, tetralogy of: choice of surgical procedure (Daily et al.), 338
comparison of exercise and catheterization results following total surgical correction of (Hirschfeld et al.), 446
Fever and leukocytosis in diagnosis of infection after cardiac valve surgery, unreliability of (Bell et al.), 87
Fibrillating heart during alternate periods of pulsatile and nonpulsatile perfusion, comparison of regional myocardial blood flow and metabolism distal to critical coronary stenosis in (Ciardullo et al.), 193
Fistula, arteriovenous, coronary, congenital, terminating in left ventricle (Kiso and Ishikura), 784 (letter); Reply (Midell and Bermudez), 785
trachea–innominate artery, management of (Ramesh and Gazzaniga), 138
tracheoesophageal, giant: management by esophageal diversion (Utley et al.), 373
Flail chest after blunt trauma, operative stabilization for (Thomas et al.), 793
Flap, left subclavian, for coarctation of aorta in infancy, early and late results of aortoplasty with (Hamilton et al.), 699
Flow, artery, bronchial, transplantation of left lung into right hemithorax to facilitate immediate reconstitution of (Veith et al.), 141
blood, and metabolism, myocardial, regional, distal to critical coronary stenosis in fibrillating heart during alternate periods of pulsatile and nonpulsatile perfusion, comparison of (Ciardullo et al.), 193
myocardial, total and regional, during acute rejection of orthotopic canine cardiac allografts, alterations in (Salomon et al.), 542
-pressure characteristics of coronary collateral circulation during cardiopulmonary bypass: effects of hemodilution (Kleinman et al.), 17
pulsatile and nonpulsatile, during cardiopulmonary bypass, comparative studies of. I. Pulsatile system employed and its hematologic effects (Taylor et al.), 569
II. Effects on adrenal secretion of cortisol (Taylor et al.), 574
III. Response of anterior pituitary gland to thyrotropin-releasing hormone (Taylor et al.), 579
Fluid into pacemaker lead socket, false inhibition of demand pacemaker due to leakage of (Chandra et al.), 765
Function, in vivo, of Hancock porcine xenograft in aortic position, evaluation of (Johnson et al.), 599
Functional evaluation of normothermic intermittent coronary perfusion: experimental study (Wakabayashi et al.), 414

G

Gas exchange, pulmonary, effects of cardiopulmonary bypass upon (Rea et al.), 104
during venoarterial bypass with membrane lung for acute respiratory failure (Lemaire et al.), 839
Gland, pituitary, anterior, to thyrotropin-releasing hormone, response of, III. Comparative studies of pulsatile and nonpulsatile flow during cardiopulmonary bypass (Taylor et al.), 579
Gore-Tex graft, coronary bypass with (Molina et al.), 769
Graft(s) bypass, mammary, internal: superior second coronary artery (Jones et al.), 625
and/or donor pretreatment with antilymphoblast globulin, cyclophosphamide, or methylprednisolone: improved survival of heart transplants (Toledo-Pereyra and Condie), 536
Gore-Tex, coronary bypass with (Molina et al.), 769

Graft(s)—Cont'd
patency and myocardial performance following coronary bypass with internal mammary artery, quantitative assessment of (Vogel et al.), 487
vein, circular, optimal patency rates obtained in coronary artery grafting with (Grondin et al.), 161
Grafting, artery, coronary, with serial determinations of serum CPK MB isoenzyme, evaluation of myocardial damage during (Delva et al.), 467
bypass, coronary, delayed cardiac tamponade associated with prophylactic anticoagulation in patients undergoing: early diagnosis with two-dimensional echocardiography (Hochberg et al.), 777

H

Hancock porcine xenograft in aortic position, evaluation of in vivo function of (Johnson et al.), 599
xenograft bioprosthesis for aortic valve replacement (with emphasis on management of small aortic root), hemodynamic and clinical evaluation of (Jones et al.), 300
thromboembolic complications after mitral valve replacement with (Hetzer et al.), 651
Heart disease, congenital, complex, conduit repair for: late follow-up (Heck et al.), 806
fibrillating, during alternate periods of pulsatile and nonpulsatile perfusion, comparison of regional myocardial blood flow and metabolism distal to critical coronary stenosis in (Ciardullo et al.), 193
transplants, improved survival of: graft and/or donor pretreatment with antilymphoblast globulin, cyclophosphamide, or methylprednisolone (Toledo-Pereyra and Condie), 536
Hematologic effects, pulsatile system employed and, I. Comparative studies of pulsatile and nonpulsatile flow during cardiopulmonary bypass (Taylor et al.), 569
Hemithorax, right, to facilitate immediate reconstitution of bronchial artery flow, transplantation of left lung into (Veith et al.), 141
Hemodilution, effects of: pressure-flow characteristics of coronary collateral circulation during cardiopulmonary bypass (Kleinman et al.), 17
Hemodynamic assessment of Liliehei-Kaster tilting disc aortic and mitral prostheses (Forman et al.), 595
and clinical evaluation of Hancock xenograft bioprosthesis for aortic valve replacement (with emphasis on management of small aortic root) (Jones et al.), 300
Hemorrhagic infarct following myocardial revascularization (Montoya et al.), 206
Heparin and protamine dosage in open-heart surgery, evaluation of activated clotting time to control (Arkin et al.), 790 (letter); Reply (Bull et al.), 791
-TDMAC shunt, repair of lesions of descending thoracic aorta with (Cukingnan et al.), 227
Hernia, diaphragmatic, and severe cardiopulmonary disease, use of tolazoline in newborn infants with: preliminary report (Moodie et al.), 725
Heterograft, porcine, in infant, mitral valve replacement with (Crawford et al.), 705
His bundle electrograms, clinical use of (Scherlag), 788 (letter); Reply (Gould), 789
Hormone, thyrotropin-releasing, response of anterior pituitary gland to, III. Comparative studies of pulsatile and nonpulsatile flow during cardiopulmonary bypass (Taylor et al.), 579
Hyperemia, reactive, myocardial, caused by initial myocardial anoxia during aortic valve replacement (Kairaluoma et al.), 716
Hyperkalemic cardiac arrest, cold, versus intermittent aortic cross-clamping and topical hypothermia for coronary bypass surgery (Adappa et al.), 171
Hypertension, postcoarctectomy, sodium nitroprusside and propranolol therapy for management of (Will et al.), 722
Hypertrophy, volume, and performance, ventricular, in aortic stenosis and in aortic incompetence, effects of successful, uncomplicated valve replacement on (Pantely et al.), 383
Hypothalamo-pituitary-thyroid axis function during cardiopulmonary bypass (Bremner et al.), 392
Hypothermia in aortic valve replacement, clinical experience using potassium-induced cardioplegia with (Adams et al.), 564
cardiac, evaluated by ultrastructural studies in man (Engedal et al.), 548
intraoperative myocardial protection by cardioplegia in: clinical findings (Bleese et al.), 405
and multidose cardioplegia in myocardial preservation during ischemic arrest, significance of (Engelman et al.), 555
topical, and intermittent aortic cross-clamping versus cold hyperkalemic cardiac arrest for coronary bypass surgery (Adappa et al.), 171

I

Immunologic factors, related, surgery for coccidioidomycosis in 52 diabetic patients with special reference to (Baker et al.), 680
Impalement wound, massive, of chest: case report (Romero et al.), 832
Implantation, pacemaker, in extremely young: safe and cosmetic approach (Culliford et al.), 763
Incompetence, aortic, and in aortic stenosis, effects of successful, uncomplicated valve replacement on ventricular hypertrophy, volume, and performance in (Pantely et al.), 383
Infancy, early and late results of aortoplasty with left subclavian flap for coarctation of aorta in (Hamilton et al.), 699
long-term results following repair in: total anomalous pulmonary venous connection (Whight et al.), 52
See Pacemaker implantation in extremely young: safe and cosmetic approach (Culliford et al.), 763
Infant(s), mitral valve replacement with porcine heterograft in (Crawford et al.), 705
newborn, with diaphragmatic hernia and severe cardiopulmonary disease, use of tolazoline in: preliminary report (Moodie et al.), 725
surgical management of ventricular septal defects in (McNicholas et al.), 346
Infarct, hemorrhagic, following myocardial revascularization (Montoya et al.), 206
Infarction, myocardial, anomalous origin of left main coronary artery from anterior sinus of Valsalva with (Murphy et al.), 282
healing, ventricular arrhythmias in: role of rhythm versus rate in re-entrant activation (Hope et al.), 458
and septic pulmonary embolism, clinical spectrum of (MacMillan et al.), 670
Infection after cardiac valve surgery, unreliability of fever and leukocytosis in diagnosis of (Bell et al.), 87
Inflammatory pseudotumor of sternum: complication of polymer application during sternotomy repair (Rosen et al.), 147

Infradiaphragmatic total anomalous pulmonary venous return into inferior vena cava, successful surgical correction of: fourteen year follow-up (Porter et al.), 68
Infusates, cardioplegic, importance of magnesium in: myocardial protection during ischemic cardiac arrest (Hearse et al.), 877
Inhibition, false, of demand pacemaker due to leakage of fluid into pacemaker lead socket (Chandra et al.), 765
Innominate artery fistula, trachea–, management of (Ramesh and Gazzaniga), 138
Insufficiency, mitral and tricuspid, associated with secundum atrial septal defect, surgery for (Shigenobu et al.), 290
pulmonary, through prophylactic use of PEEP and rapid respiratory rates, prevention of (Askanazi et al.), 267
Insulin and plasma cyclic AMP in cardiac surgery, levels of (Chiu and McArdle), 286
Interrupted aortic arch with aortic septal defect (Sissman), 902 (letter)
Intracardiac malformations, associated, another approach to: corrected transposition (Bailey et al.), 815
Irradiation, surgery, and chemotherapy, improved survival with: pulmonary resection in children with metastatic osteogenic sarcoma (Giritsky et al.), 354
Ischemia, transient, in dog, contractile damage from reperfusion after (Smith et al.), 452
Ischemic arrest, significance of multidose cardioplegia and hypothermia in myocardial preservation during (Engelman et al.), 555
cardiac arrest, myocardial protection during: importance of magnesium in cardioplegic infusates (Hearse et al.), 877
Isoenzyme, CPK MB, serum, evaluation of myocardial damage during coronary artery grafting with serial determinations of (Delva et al.), 467

J

Jatene operation, successful, for transposition of great arteries with intact ventricular septum: case report (Abe et al.), 64

K

Kent bundle and Ebstein anomaly, surgical treatment of tachyarrhythmias in patients with both (Sealy et al.), 847

L

Lactate metabolism, myocardial, in patients considered candidates for emergency myocardial revascularization, therapeutic implications of (Wiener et al.), 612
Lead socket, pacemaker, false inhibition of demand pacemaker due to leakage of fluid into (Chandra et al.), 765
Leaflets, pulmonary and aortic, observations of collagen and elastin structures in wet whole mounts of (Broom), 121
Leiomyosarcoma of esophagus: report of two cases, one with associated squamous cell carcinoma (Gaede et al.), 740
Leukocytosis and fever in diagnosis of infection after cardiac valve surgery, unreliability of (Bell et al.), 87
Ligamentum arteriosum, left, and aberrant left subclavian artery, surgical repair of right aortic arch with (Jung et al.), 237
Ligation of patent ductus: technical considerations at different ages (Wright and Newman), 695
Lillehei-Kaster tilting disc aortic and mitral prostheses, hemodynamic assessment of (Forman et al.), 595
Longevity, does coronary bypass increase it? (Isom et al.), 28
Lung biopsy with local anesthesia: report on 100 cases with use of recently introduced technique (Thompson), 429
cancer in patients over age of 70 years, surgical treatment of (Harviel et al.), 802
carcinoma of, carcinoembryonic antigen as monitor of successful surgical resection in 130 patients with (Vincent et al.), 734
left, into right hemithorax to facilitate immediate reconstitution of bronchial artery flow, transplantation of (Veith et al.), 141
membrane, for acute respiratory failure, pulmonary gas exchange during venoarterial bypass with (Lemaire et al.), 839
carbon dioxide: *See* Alternative to breathing (Kolobow et al.), 261

M

Magnesium in cardioplegic infusates, importance of: myocardial protection during ischemic cardiac arrest (Hearse et al.), 877
Malformations, intracardiac, associated, another approach to: corrected transposition (Bailey et al.), 815
Malfunction of Cutter-Smeloff mitral prosthesis: echocardiographic diagnosis (Behi et al.), 313
Malignant and benign variants: localized mesothelioma of pleura (Okike et al.), 363
Mammary artery, internal, quantitative assessment of myocardial performance and graft patency following coronary bypass with (Vogel et al.), 487
bypass graft, internal: superior second coronary artery (Jones et al.), 625
Mapping of conduction bundle (Siegel et al.), 786 (letter); Reply (Schatz et al.), 787
Marfan syndrome and cardiac surgery (Davis et al.), 505
Mechanical circulatory support in postoperative cardiogenic shock (Radvany et al.), 97
Mediastinal blood, shed, after cardiac surgery, autotransfusion of: prospective study (Schaff et al.), 632
diseases, ^{75}Se-selenomethionine scintigraphy in (Masaoka and Kyo), 419
Melanoma, pleural, primary: first reported case and literature review (Smith and Opipari), 827
Membrane lung for acute respiratory failure, pulmonary gas exchange during venoarterial bypass with (Lemaire et al.), 839
carbon dioxide: *See* Alternative to breathing (Kolobow et al.), 261
Mesothelioma, localized, of pleura: benign and malignant variants (Okike et al.), 363
Metabolism and blood flow, myocardial, regional, distal to critical coronary stenosis in fibrillating heart during alternate periods of pulsatile and nonpulsatile perfusion, comparison of (Ciardullo et al.), 193
lactate, myocardial, in patients considered candidates for emergency myocardial revascularization, therapeutic implications of (Wiener et al.), 612
Metastatic osteogenic sarcoma, pulmonary resection in children with: improved survival with surgery, chemotherapy, and irradiation (Giritsky et al.), 354
Methylprednisolone, cyclophosphamide, or antilymphoblast globulin, graft and/or donor pretreatment with: improved survival of heart transplants (Toledo-Pereyra and Condie), 536

Mitral and aortic prostheses, tilting disc, Lillehei-Kaster, hemodynamic assessment of (Forman et al.), 595
valve replacement, single, with present model of Smeloff-Cutter valves, long-term survival after (McHenry et al.), 709
prosthesis, Cutter-Smeloff, malfunction of: echocardiographic diagnosis (Behi et al.), 313
and tricuspid insufficiency associated with secundum atrial septal defect, surgery for (Shigenobu et al.), 290
valve. *See* Valve.
Mounts, whole, wet, of pulmonary and aortic leaflets, observations of collagen and elastin structures in (Broom), 121
Mucus transfer, transbronchial, of bronchogenic carcinoma (Cattaneo et al.), 585
Muscle cells, smooth, in neointimae of synthetic vascular prostheses, pattern of arrangement of (Noishiki), 894
Mustard operation, pathology of sinus node in d-transposition following (Edwards et al.), 213
Myasthenia gravis undergoing thymectomy, high-dose steroids for perioperative management of patients with: preliminary report (Bolooki and Schwartzman), 754
Mycobacteria, atypical, and xenograft valve (Tyras et al.), 331
Mycobacterium fortuitum epidemics after open-heart surgery (Robicsek et al.), 91
Myocardial blood flow and metabolism, regional, distal to critical coronary stenosis in fibrillating heart during alternate periods of pulsatile and nonpulsatile perfusion, comparison of (Ciardullo et al.), 193
total and regional, during acute rejection of orthotopic canine cardiac allografts, alterations in (Salomon et al.), 542
damage during coronary artery grafting with serial determinations of serum CPK MB isoenzyme, evaluation of (Delva et al.), 467
electrode, temporary, improved design of (Yokoyama and Wada), 443
failure after aortic valve replacement, recovery from (Schwarz et al.), 854
infarction, anomalous origin of left main coronary artery from anterior sinus of Valsalva with (Murphy et al.), 282
healing, ventricular arrhythmias in: role of rhythm versus rate in re-entrant activation (Hope et al.), 458
ischemia, myocardial edema, and postarrest ventricular function, effects of procaine-induced cardioplegia on: comparison with potassium-induced cardioplegia and hypothermia (Bixler et al.), 886
performance and graft patency following coronary bypass with internal mammary artery, quantitative assessment of (Vogel et al.), 487
preservation during ischemic arrest, significance in multidose cardioplegia and hypothermia in (Engelman et al.), 555
protection, intraoperative, by cardioplegia in hypothermia: clinical findings (Bleese et al.), 405
during ischemic cardiac arrest: importance of magnesium in cardioplegic infusates (Hearse et al.), 877
reactive hyperemia caused by initial myocardial anoxia during aortic valve replacement (Kairaluoma et al.), 716
revascularization, coagulation abnormalities in patients undergoing (Zajtchuk et al.), 168
emergency, therapeutic implications of myocardial lactate metabolism in patients considered candidates for (Wiener et al.), 612
hemorrhagic infarct following (Montoya et al.), 206

N

Neointimae of synthetic vascular prostheses, pattern of arrangement of smooth muscle cells in (Noishiki), 894
Nitroprusside, sodium, and propranolol therapy for management of postcoarctectomy hypertension (Will et al.), 722
Node, sinus, in d-transposition following Mustard operation, pathology of (Edwards et al.), 213
Nonpulsatile and pulsatile flow during cardiopulmonary bypass, comparative studies of. I. Pulsatile system employed and its hematologic effects (Taylor et al.), 569
II. Effects on adrenal secretion of cortisol (Taylor et al.), 574
III. Response of anterior pituitary gland to thyrotropin-releasing hormone (Taylor et al.), 579
Normothermic intermittent coronary perfusion, functional evaluation of: experimental study (Wakabayashi et al.), 414

O

Obituaries
Brian Brewer Blades (1906-1977), 782
Leo Eloesser (1881-1976), 149
Obstruction, outflow tract, left ventricular, below the defect, ventricular septal defect associated with (Dirksen et al.), 688
results of aortoventriculoplasty in 21 consecutive patients with (Rastan et al.), 659
thrombotic, acute, with Björk-Shiley valves: diagnostic and surgical considerations (Moreno-Cabral et al.), 321
Obstructive pulmonary disease, chronic, application to patient with: diaphragm pacing (Glenn et al.), 273
Open-heart surgery, *Mycobacterium fortuitum* epidemics after (Robicsek et al.), 91
in uremic patients, considerations in management of (Connors and Shaw), 400
Osteogenic sarcoma, metastatic, pulmonary resection in children with: improved survival with surgery, chemotherapy, and irradiation (Giritsky et al.), 354
Outflow tract obstruction, left ventricular, below the defect, ventricular septal defect associated with (Dirksen et al.), 688
results of aortoventriculoplasty in 21 consecutive patients with (Rastan et al.), 659
Outlet chamber, conducting tissues in primitive ventricle with: two different possibilities (Wenink), 747

P

Pacemaker(s), cardiac, transvenous, permanent, prophylactic antibiotics and insertion of (Hartstein et al.), 219
demand, due to leakage of fluid into pacemaker lead socket, false inhibition of (Chandra et al.), 765
implantation in extremely young: safe and cosmetic approach (Culliford et al.), 763
transvenous, endocarditis related to: syndromes and surgical implications (Bryan et al.), 758
Pacing, diaphragm: application to patient with chronic obstructive pulmonary disease (Glenn et al.), 273
Pars membranacea of trachea, operative treatment of prolapse of (Löhr et al.), 425
Patency, graft, and myocardial performance following coronary bypass with internal mammary artery, quantitative assessment of (Vogel et al.), 487

Patency—Cont'd
rates, optimal, obtained in coronary artery grafting with circular vein grafts (Grondin et al.), 161
Patent ductus, ligation of: technical considerations at different ages (Wright and Newman), 695
PEEP and rapid respiratory rates, prevention of pulmonary insufficiency through prophylactic use of (Askanazi et al.), 267
Penetrating cardiac wounds, late sequelae of (Abbott et al.), 510
Perfusion, coronary, intermittent, normothermic, functional evaluation of: (Wakabayashi et al.), 414
of proximal and distal coronary arteries, results with: aortic valve replacement and aorta-coronary bypass surgery (Macmanus et al.), 865
pulsatile and nonpulsatile, comparison of regional myocardial blood flow and metabolism distal to critical coronary stenosis in fibrillating heart during alternate periods of (Ciardullo et al.), 193
Pericardial chordae, autologous, replacement of ruptured chordae tendineae of mitral valve with (Rittenhouse et al.), 870
effusion, chronic, owing to postpericardiotomy syndrome (Sade), 789 (letter); Reply (McCabe), 789
Pituitary gland, anterior, to thyrotropin-releasing hormone, response of, III. Comparative studies of pulsatile and nonpulsatile flow during cardiopulmonary bypass (Taylor et al.), 579
-hypothalamo-thyroid axis function during cardiopulmonary bypass (Bremner et al.), 392
Plasma cyclic AMP and insulin in cardiac surgery, levels of (Chiu and McArdle), 286
Pleura, localized mesothelioma of: benign and malignant variants (Okike et al.), 363
Pleural melanoma, primary: first reported case and literature review (Smith and Opipari), 827
Polymer application during sternotomy repair, complication of: inflammatory pseudotumor of sternum (Rosen et al.), 147
Porcine heterograft in infant, mitral valve replacement with (Crawford et al.), 705
Postcoarctectomy hypertension, sodium nitroprusside and propranolol therapy for management of (Will et al.), 722
Postpericardiotomy syndrome, chronic pericardial effusion owing to (Sade), 789 (letter); Reply (McCabe), 789
Potassium-induced cardioplegia with hypothermia in aortic valve replacement, clinical experience using (Adams et al.), 564
comparison with: effects of procaine-induced cardioplegia on myocardial ischemia, myocardial edema, and postarrest ventricular function (Bixler et al.), 886
Predictive variables in reoperation for coronary artery disease (Allen et al.), 186
Preservation, myocardial, during ischemic arrest, significance of multidose cardioplegia and hypothermia in (Engelman et al.), 555
Pressure-flow characteristics of coronary collateral circulation during cardiopulmonary bypass: effects of hemodilution (Kleinman et al.), 17
sphincter, esophageal, lower, intraoperative measurement of (Hill), 378
Primary pleural melanoma: first reported case and literature review (Smith and Opipari), 827
Primitive ventricle with outlet chamber, conducting tissues in: two different possibilities (Wenink), 747
Procaine-induced cardioplegia on myocardial ischemia, myocardial edema, and postarrest ventricular function, effects of: comparison with potassium-induced cardioplegia and hypothermia (Bixler et al.), 886
Prolapse of pars membranacea of trachea, operative treatment of (Löhr et al.), 425
Prophylactic antibiotics and insertion of permanent transvenous cardiac pacemakers (Hartstein et al.), 219
use of PEEP and rapid respiratory rates, prevention of pulmonary insufficiency through (Askanazi et al.), 267
Propranolol and sodium nitroprusside therapy for management of postcoarctectomy hypertension (Will et al.), 722
Prosthesis(es), aortic and mitral, tilting disc, Lillehei-Kaster, hemodynamic assessment of (Forman et al.), 595
mitral, Cutter-Smeloff, malfunction of: echocardiographic diagnosis (Behi et al.), 313
valve, mitral, causing recurrent thromboemboli, ball variance and fracture of (Joyce et al.), 309
vascular, synthetic, pattern of arrangement of smooth muscle cells in neointimae of (Noishiki), 894
Protamine and heparin dosage in open-heart surgery, evaluation of activated clotting time to control (Arkin et al.), 790 (letter); Reply (Bull et al.), 791
Protection, myocardial, intraoperative, by cardioplegia in hypothermia: clinical findings (Bleese et al.), 405
Pseudotumor, inflammatory, of sternum: complication of polymer application during sternotomy repair (Rosen et al.), 147
Pulmonary and aortic leaflets, observations of collagen and elastin structures in wet whole mounts of (Broom), 121
arterial supply in patients with truncus arteriosus, patterns of (Rossiter et al.), 73
artery, anomalous origin of left coronary artery from (Bircks), 785 (letter); Reply (Wilson et al.), 786
disease, obstructive, chronic, application to patient with: diaphragm pacing (Glenn et al.), 273
embolism, massive, surgical management of (Tschirkov et al.), 730
septic, and infarction, clinical spectrum of (MacMillan et al.), 670
gas exchange, effects of cardiopulmonary bypass upon (Rea et al.), 104
during venoarterial bypass with membrane lung for acute respiratory failure (Lemaire et al.), 839
insufficiency through prophylactic use of PEEP and rapid respiratory rates, prevention of (Askanazi et al.), 267
resection in children with metastatic osteogenic sarcoma: improved survival with surgery, chemotherapy, and irradiation (Giritsky et al.), 354
vascular resistance measurements in preoperative evaluation of candidates for pulmonary resection, role of (Fee et al.), 519
venous connection, anomalous, total: long-term results following repair in infancy (Whight et al.), 52
return, anomalous, total, infradiaphragmatic, into inferior vena cava, successful surgical correction of: fourteen year follow-up (Porter et al.), 68
Pulmonic stenosis and coarctation of aorta, experimental, in fetal lamb, response to (Burrington), 819
Pulsatile and nonpulsatile flow during cardiopulmonary bypass, comparative studies of. I. Pulsatile system employed and its hematologic effects (Taylor et al.), 569

Pulsatile and nonpulsatile flow—Cont'd
II. Effects on adrenal secretion of cortisol (Taylor et al.), 574
III. Response of anterior pituitary gland to thyrotropin-releasing hormone (Taylor et al.), 579

R

Rate versus rhythm in re-entrant activation, role of: ventricular arrhythmias in healing myocardial infarction (Hope et al.), 458
Reactive hyperemia, myocardial, caused by initial myocardial anoxia during aortic valve replacement (Kairaluoma et al.), 716
Re-entrant activation, role of rhythm versus rate in: ventricular arrhythmias in healing myocardial infarction (Hope et al.), 458
Regression analysis of late survival following mitral valve replacement (Grunkemeier et al.), 131
Rejection, acute, of orthotopic canine cardiac allografts, alterations in total and regional myocardial blood flow during (Salomon et al.), 542
Repair of atrial septal defect primum: results, course, and prognosis (Losay et al.), 248
conduit, for complex congenital heart disease: late follow-up (Heck et al.), 806
sternotomy, complication of polymer application during: inflammatory pseudotumor of sternum (Rosen et al.), 147
Reperfusion after transient ischemia in dog, contractile damage from (Smith et al.), 452
Replacement, valve. *See* Valve.
Resection, pulmonary, in children with metastatic osteogenic sarcoma: improved survival with surgery, chemotherapy, and irradiation (Giritsky et al.), 354
role of pulmonary vascular resistance measurements in preoperative evaluation of candidates for (Fee et al.), 519
surgical, successful, in 130 patients with carcinoma of lung, carcinoembryonic antigen as monitor of (Vincent et al.), 734
of ventricular aneurysm, early and late results of (Okies et al.), 255
Resistance measurements, vascular, pulmonary, in preoperative evaluation of candidates for pulmonary resection, role of (Fee et al.), 519
Respiratory failure, acute, pulmonary gas exchange during venoarterial bypass with membrane lung for (Lemaire et al.), 839
rates, rapid, and PEEP, prevention of pulmonary insufficiency through prophylactic use of (Askanazi et al.), 267
Return, venous, pulmonary, anomalous, total, infradiaphragmatic, into inferior vena cava, successful surgical correction of: fourteen year follow-up (Porter et al.), 68
Revascularization, artery, coronary, direct, reoperation in symptomatic patients after (Krause et al.), 499
myocardial, coagulation abnormalities in patients undergoing (Zajtchuk et al.), 168
emergency, therapeutic implications of myocardial lactate metabolism in patients considered candidates for (Wiener et al.), 612
hemorrhagic infarct following (Montoya et al.), 206
Rhythm versus rate in re-entrant activation, role of: ventricular arrhythmias in healing myocardial infarction (Hope et al.), 458

S

Samson Thoracic Surgical Society: Announcement of 1978 Annual Meeting, 153, 319
Samson Thoracic Surgical Society—Cont'd
Program of 1978 Annual Meeting, 648
Roster of members, 155
Saphenous-coronary anastomoses as studied by cast-injection technique, internal configuration of (Young et al.), 179
Sarcoma, osteogenic, metastatic, pulmonary resection in children with: improved survival with surgery, chemotherapy, and irradiation (Giritsky et al.), 354
Scintigraphy, ^{75}Se-selenomethionine, in mediastinal diseases (Masaoka and Kyo), 419
Secretion, adrenal, of cortisol, effects on, II. Comparative studies of pulsatile and nonpulsatile flow during cardiopulmonary bypass (Taylor et al.), 574
Septic pulmonary embolism and infarction, clinical spectrum of (MacMillan et al.), 670
Septum, ventricular, intact, successful Jatene operation for transposition of great arteries with: case report (Abe et al.), 64
Serum CPK MB isoenzyme, evaluation of myocardial damage during coronary artery grafting with serial determinations of (Delva et al.), 467
^{75}Se-selenomethionine scintigraphy in mediastinal diseases (Masaoka and Kyo), 419
Shock, cardiogenic, postoperative, mechanical circulatory support in (Radvany et al.), 97
Shunt, TDMAC-heparin, repair of lesions of descending thoracic aorta with (Cukingnan et al.), 227
Sinus node in d-transposition following Mustard operation, pathology of (Edwards et al.), 213
of Valsalva aneurysm and aortico–left ventricular tunnel: case report with operative repair (Spooner et al.), 232
anterior, with myocardial infarction, anomalous origin of left main coronary artery from (Murphy et al.), 282
Smeloff-Cutter valves, long-term survival after single aortic or mitral valve replacement with present model of (McHenry et al.), 709
Sodium nitroprusside and propranolol therapy for management of postcoarctectomy hypertension (Will et al.), 722
Sphincter pressure, esophageal, lower, intraoperative measurement of (Hill), 378
Squamous cell carcinoma, associated, report of two cases, one with: leiomyosarcoma of esophagus (Gaede et al.), 740
Stabilization, operative, for flail chest after blunt trauma (Thomas et al.), 793
Stable angina pectoris, chronic, survival of men treated for: cooperative randomized study (Read et al.), 1
Starr-Edwards valve, cloth-covered, without anticoagulation and with varying forms of anticoagulation, incidence of emboli with: analysis of 183 patients followed for 3½ years (Moggio et al.), 296
Stenosis, aortic, and in aortic incompetence, effects of successful, uncomplicated valve replacement on ventricular hypertrophy, volume, and performance in (Pantely et al.), 383
supravalvular, surgical management of vascular abnormalities associated with (Landes et al.), 80
coronary, critical, in fibrillating heart during alternate periods of pulsatile and nonpulsatile perfusion, comparison of regional myocardial blood flow and metabolism distal to (Ciardullo et al.), 193
pulmonic, and coarctation of aorta, experimental, in fetal lamb, response to (Burrington), 819
Sternal closure, inexpensive (Tabry), 902 (letter); Reply (Rubio), 902

Sternum, inflammatory pseudotumor of: compiication of polymer application during sternotomy repair (Rosen et al.), 147
Steroids, high-dose, for perioperative management of patients with myasthenia gravis undergoing thymectomy: preliminary report (Bolooki and Schwartzman), 754
Subclavian artery, left, aberrant, and left ligamentum arteriosum, surgical repair of right aortic arch with (Jung et al.), 237
flap, left, for coarctation of aorta in infancy, early and late results of aortoplasty with (Hamilton et al.), 699
Support, circulatory, mechanical, in postoperative cardiogenic shock (Radvany et al.), 97
Supravalvular aortic stenosis, surgical management of vascular abnormalities associated with (Landes et al.), 80
Surgery, open-heart, *Mycobacterium fortuitum* epidemics after (Robicsek et al.), 91
in uremic patients, considerations in management of (Connors and Shaw), 400
Survival, late, following mitral valve replacement, regression analysis of (Grunkemeier et al.), 131
of men treated for chronic stable angina pectoris: cooperative randomized study (Read et al.), 1
Syndrome, Marfan, and cardiac surgery (Davis et al.), 505
postpericardiotomy, chronic pericardial effusion owing to (Sade), 789 (letter); Reply (McCabe), 789

T

Tachyarrhythmias in patients with both Ebstein anomaly and Kent bundle, surgical treatment of (Sealy et al.), 847
Tamponade, cardiac, delayed, associated with prophylactic anticoagulation in patients undergoing coronary bypass grafting: early diagnosis with two-dimensional echocardiography (Hochberg et al.), 777
chylopericardial, and chylothorax Blalock-Taussig anastomosis (Hargus et al.), 642
TDMAC-heparin shunt, repair of lesions of descending thoracic aorta with (Cukingnan et al.), 227
Temporary myocardial electrode, improved design of (Yokoyama and Wada), 443
Tetralogy of Fallot: choice of surgical procedure (Daily et al.), 338
comparison of exercise and catheterization results following total surgical correction of (Hirschfeld et al.), 446
Thoracic aorta, descending, with TDMAC-heparin shunt, repair of lesions of (Cukingnan et al.), 227
surgery, "general" versus "noncardiac" (Bryant), 784
Thromboemboli, recurrent, ball variance and fracture of mitral valve prosthesis causing (Joyce et al.), 309
Thromboembolic complications after mitral valve replacement with Hancock xenograft (Hetzer et al.), 651
Thrombotic obstruction, acute, with Björk-Shiley valves: diagnostic and surgical considerations (Moreno-Cabral et al.), 321
Thymectomy, high-dose steroids for perioperative management of patients with myasthenia gravis undergoing: preliminary report (Bolooki and Schwartzman), 754
Thyroid-hypothalamo-pituitary axis function during cardiopulmonary bypass (Bremner et al.), 392
Thyrotropin-releasing hormone, response of anterior pituitary gland to, III. Comparative studies of pulsatile and nonpulsatile flow during cardiopulmonary bypass (Taylor et al.), 579
Tissues, conducting, in primitive ventricle with outlet chamber: two different possibilities (Wenink), 747
Tolazoline in newborn infants with diaphragmatic hernia and severe cardiopulmonary disease, use of: preliminary report (Moodie et al.), 725
Total anomalous pulmonary venous connection: long-term results following repair in infancy (Whight et al.), 52
return, infradiaphragmatic, into inferior vena cava, successful surgical correction of: fourteen year follow-up (Porter et al.), 68
Trachea–innominate artery fistula, management of (Ramesh and Gazzaniga), 138
operative treatment of prolapse of pars membranacea of (Löhr et al.), 425
Tracheoesophageal fistula, giant: management by esophageal diversion (Utley et al.), 373
Tract obstruction, outflow, left ventricular, below the defect, ventricular septal defect associated with (Dirksen et al.), 688
results of aortoventriculoplasty in 21 consecutive patients with (Rastan et al.), 659
Transbronchial mucus transfer of bronchogenic carcinoma (Cattaneo et al.), 585
Transplant(s), heart, improved survival of: graft and/or donor pretreatment with antilymphoblast globulin, cyclophosphamide, or methylprednisolone (Toledo-Pereyra and Condie), 536
Transplantation, cardiac, anesthetic experience with (Fernando et al.), 531
current expectations in (Baumgartner et al.), 525
of left lung into right hemithorax to facilitate immediate reconstitution of bronchial artery flow (Veith et al.), 141
Transposition, corrected: another approach for repair of associated intracardiac malformations (Bailey et al.), 815
of great arteries with intact ventricular septum, successful Jatene operation for: case report (Abe et al.), 64
d-Transposition following Mustard operation, pathology of sinus node in (Edwards et al.), 213
Transvenous cardiac pacemakers, permanent, prophylactic antibiotics and insertion of (Hartstein et al.), 219
pacemakers, endocarditis related to: syndromes and surgical implications (Bryan et al.), 758
Trauma, blunt, operative stabilization for flail chest after (Thomas et al.), 793
Treadmill exercise, postoperative, clinical follow-up and results of: delayed semielective coronary bypass surgery for unstable angina pectoris (Huret et al.), 476
Tricuspid and mitral insufficiency associated with secundum atrial septal defect, surgery for (Shigenobu et al.), 290
Truncus arteriosus, patterns of pulmonary arterial supply in patients with (Rossiter et al.), 73
Tunnel, aortico–left ventricular, and sinus of Valsalva aneurysm: case report with operative repair (Spooner et al.), 232

U

Ultrastructural studies in man, cardiac hypothermia evaluated by (Engedal et al.), 548
Uremic patients, considerations in management of open-heart surgery in (Connors and Shaw), 400

V

Valsalva, sinus of, aneurysm and aortico–left ventricular tunnel: case report with operative repair (Spooner et al.), 232
anterior, with myocardial infarction, anomalous origin of left main coronary artery from (Murphy et al.), 282
Valve(s), Björk-Shiley, acute thrombotic obstruction with: diagnostic and surgical considerations (Moreno-Cabral et al.), 321

Valve(s)—Cont'd
mitral, with autologous pericardial chordae, replacement of ruptured chordae tendineae of (Rittenhouse et al.), 870
xenograft, porcine, late spontaneous disruption of: clinical, hemodynamic, echocardiographic, and pathological findings (Brown et al.), 606
prosthesis, mitral, causing recurrent thromboemboli, ball variance and fracture of (Joyce et al.), 309
replacement, aortic, clinical experience using potassium-induced cardioplegia with hypothermia in (Adams et al.), 564
and aorta-coronary bypass surgery: results with perfusion of proximal and distal coronary arteries (Macmanus et al.), 865
or mitral, single, with present model of Smeloff-Cutter valves, long-term survival after (McHenry et al.), 709
myocardial reactive hyperemia caused by initial myocardial anoxia during (Kairaluoma et al.), 716
recovery from myocardial failure after (Schwarz et al.), 854
(with emphasis on management of small aortic root), hemodynamic and clinical evaluation of Hancock xenograft bioprosthesis for (Jones et al.), 300
mitral, with Hancock xenograft, thromboembolic complications after (Hetzer et al.), 651
with porcine heterograft in infant (Crawford et al.), 705
regression analysis of late survival following (Grunkemeier et al.), 131
uncomplicated, successful, on ventricular hypertrophy, volume, and performance in aortic stenosis and in aortic incompetence, effects of (Pantely et al.), 383
Starr-Edwards, cloth-covered, without anticoagulation and with varying forms of anticoagulation, incidence of emboli with: analysis of 183 patients followed for 3½ years (Moggio et al.), 296
surgery, cardiac, unreliability of fever and leukocytosis in diagnosis of infection after (Bell et al.), 87
xenograft, and atypical mycobacteria (Tyras et al.), 331
Vascular abnormalities associated with supravalvular aortic stenosis, surgical management of (Landes et al.), 80
prostheses, synthetic, pattern of arrangement of smooth muscle cells in neointimae of (Noishiki), 894
resistance measurements, pulmonary, in preoperative evaluation of candidates for pulmonary resection, role of (Fee et al.), 519
Vein grafts, circular, optimal patency rates obtained in coronary artery grafting with (Grondin et al.), 161
Vena cava, inferior, anomalous, with azygos continuation and combined ostium primum and secundum atrial septal defects, cyanosis in patient with: case report and surgical considerations (Jung et al.), 244
Venoarterial bypass with membrane lung for acute respiratory failure, pulmonary gas exchange during (Lemaire et al.), 839
Venous connection, pulmonary, anomalous, total: long-term results following repair in infancy (Whight et al.), 52
return, pulmonary, anomalous, total, infradiaphragmatic, into inferior vena cava, successful surgical correction of: fourteen year follow-up (Porter et al.), 68
Ventricle, left, alternative approach to apex of (Grunwald), 646
congenital coronary arteriovenous fistula terminating in (Kiso and Ishikura), 784 (letter); Reply (Midell and Bermudez), 785
primitive, with outlet chamber, conducting tissues in: to different possibilities (Wenink), 747
Ventricular aneurysm, early and late results of resection of (Okies et al.), 255
arrhythmias in healing myocardial infarction: role of rhythm versus rate in re-entrant activation (Hope et al.), 458
defibrillation, direct, in man, electrical dose for (Tacker et al.), 224
function, postarrest, myocardial ischemia, and myocardial edema, effects of procaine-induced cardioplegia on: comparison with potassium-induced cardioplegia and hypothermia (Bixler et al.), 886
hypertrophy, volume, and performance in aortic stenosis and in aortic incompetence, effects of successful, uncomplicated valve replacement on (Pantely et al.), 383
outflow tract obstruction, left, results of aortoventriculoplasty in 21 consecutive patients with (Rastan et al.), 659
septal defect(s) associated with left ventricular outflow tract obstruction below the defect (Dirksen et al.), 688
in infants, surgical management of (McNicholas et al.), 346
septum, intact, successful Jatene operation for transposition of great arteries with: case report (Abe et al.), 64
Ventricular tunnel, left, aortico–, and sinus of Valsalva aneurysm: case report with operative repair (Spooner et al.), 232

W

Wound(s), cardiac, penetrating, late sequelae of (Abbott et al.), 510
Wound, impalement, massive, of chest: case report (Romero et al.), 832

X

Xenograft bioprosthesis, Hancock, for aortic valve replacement (with emphasis on management of small aortic root), hemodynamic and clinical evaluation of (Jones et al.), 300
Hancock, thromboembolic complications after mitral valve replacement with (Hetzer et al.), 651
mitral valve, porcine, late spontaneous disruption of: clinical, hemodynamic, echocardiographic, and pathological findings (Brown et al.), 606
porcine, Hancock, in aortic position, evaluation of in vivo function of (Johnson et al.), 599
valve and atypical mycobacteria (Tyras et al.), 331
